Equity attributable to equity shareholders	**50.9**	52.6	57.5	64.6	82.1
Return on equity (%)	**(0.4)**	(10.6)	(12.7)	(27.2)	(50.9)
Current ratio (times) *(Note 2)*	**1.6**	1.8	2.0	2.3	3.3
Gearing ratio (%) *(Note 3)*	**79**	69	53	43	23

Notes:

1. The calculation of loss per share for above is based on the loss attributable to equity shareholders and the weighted average number of ordinary shares in issue (i.e. 907,680,000 shares) of the Company during the year.

2. Current ratio is calculated by dividing current assets by current liabilities.

3. Gearing ratio is equal to total bank loans divided by total equity times 100%.

Management Discussion and Analysis

The Group is one of the leading manufacturers of scooters and cub motorbikes in Vietnam. Its manufacturing and assembly operations are located in Dong Nai Province (near Ho Chi Minh City) and Hanoi of Vietnam with an annual production capacity of 200,000 motorbikes. The Group's motorbikes are sold under the SYM brand name and offering a wide range of models. It also produces motorbike parts and engines for internal use and export to oversea customers as well as selling and providing services associated with moulds to make die-cast and forged metal parts.

OPERATING ENVIRONMENT

In 2022 under review, the COVID-19 pandemic (the "Pandemic") has improved and life in various regions has gradually returned to normal. Meanwhile, the Russia-Ukraine war broke out at the beginning of 2022 has affected the transport and supply of raw materials, coal and oil, which caused prices of raw materials and energy to soar, further pushing up the inflation that was already surging. Economic growth of the world's major economies has been significantly affected, adding uncertainty to the overall operating environment.

In Vietnam, the Group's major operating location, economy has gradually recovered following easing of the Pandemic situation. In 2022, Vietnam's economy grew rapidly with the support from strong export. According to the statistics from the Vietnam Association of Motorcycle Manufacturers, the total sales volume of the top five foreign direct investment manufacturers in Vietnam in 2022 was 3,003,160 motorbikes, representing an increase of 20.49% compared to 2021. However, due to the global inflation pressure and the interest rate hikes, the market demand has gradually weakened since late 2022.

There has been still keen competition in the business environment in Vietnam and Association of Southeast Asian Nations ("ASEAN") countries. The management of the Group will continue to devote its best efforts to proactively identify potential business opportunities and strive to make a breakthrough in the business development, so as to make a roadmap and bring a motivator for sustainable development of the Group's core business, motorbikes manufacturing and sales, and benefit the Group therefrom.

BUSINESS REVIEW

In 2022, economic activities gradually recovered as Vietnam and ASEAN countries adapted to the impacts of the Pandemic and began to live in a "new normal". However, the Group faced challenges from business difficulties and unfavorable industry development inflicted by disruption in the supply side in the motorcycle industry, continued high prices of raw materials, and shortage of motorcycle chips and related components. The Group is committed to quickly coordinating with various suppliers and flexibly deploying production orders to cope with the challenges of unstable supply chains effectively and ensured that production materials and components could be supplied steadily and caused sale volume to grow.

The Group saw growth in its main sales regions. The Group sold an aggregate of approximately 45,400 units (which was comprised of approximately 7,100 units of scooters and 38,300 units of cubs) in Vietnam for the year ended 31 December 2022, representing an increase of 61.7% from the previous year. The main reason for the increase was that in 2022, the Group introduced a number of scooters and cub motorbikes in new fashionable colors in the Vietnamese market to meet the needs of various consumers and cater for the demand of major customers in the summer peak season. In terms of brand building, by visually upgrading distributors' stores, the Group expanded more sales channels with higher quality in core cities of Vietnam to enhance customers' willingness to stay and stare, and cooperated with distributors to intensify promotion, as well as improved service content and quality to maintain sales growth.

In 2022, the Group sold an aggregate of approximately 64,000 units of scooters and cubs by exporting to ASEAN countries, representing an increase of 36.1% from the previous year. In major ASEAN countries, the demand was strong due to the rapid recovery of social momentum, and the Group accelerated the upgrading of engine horsepower of the existing motorbike types and refined product appearance in a timely manner, resulting in good sales performance. In respect of operation, by upholding the strategy of market risk diversification, the Group aggressively explored the markets other than ASEAN countries, including Greece, Dubai and Colombia, to continuously develop new customers, and also improved the relationships with existing customers, exploiting diversified distribution channels, which achieved results of improvement in the sales performance for 2022.

The Group is committed to integrating its sales network to match marketing strategies, enhancing brand awareness and maintaining customer loyalty. As of 31 December 2022, the Group's extensive distribution network comprised over 163 SYM authorised stores owned by dealers, covering every province in Vietnam.

Management Discussion and Analysis

FINANCIAL REVIEW

The Group's net loss for the year ended 31 December 2022 decreased by US$5.4 million, from a net loss of US$5.6 million for the year ended 31 December 2021 to a net loss of US$0.2 million for the year ended 31 December 2022. Further analysis on the operating results of the Group is set out below.

REVENUE

Revenue of the Group for the year ended 31 December 2022 increased to US$132.9 million from US$93.0 million for the year ended 31 December 2021, representing an increase of US$39.9 million or 42.9%. In terms of domestic sales, in the post-pandemic era when Vietnam and the Pandemic coexist, there is a wave of retaliatory consumption, driving sales performance with increased revenue. However, price adjustment strategies were not implemented in response to competition from the industry and the slow acceptance of price adjustments in the Vietnamese market, which in turn affected further revenue growth. As for export, since ASEAN countries have always been the key markets for the Group to aggressively develop, the Group expanded such markets with its core products, and vigorously explored sales channels, achieving breakthrough sales performance in 2022. In particular, the sales in Thailand saw a strong growth. In order to reflect the higher raw material price and production cost, the Group increased the sales prices of export products to a moderate extent, and the revenue increased accordingly.

In terms of geographical contribution, approximately 29.6% of total revenue was generated from the domestic market in Vietnam for the year ended 31 December 2022 as compared with approximately 27.4% for the year ended 31 December 2021. Revenue from domestic sales in Vietnam increased by 54.1% from US$25.5 million for the year ended 31 December 2021 to US$39.3 million for the year ended 31 December 2022. Revenue from export sales increased by 38.7% from US$67.5 million for the year ended 31 December 2021 to US$93.6 million for the year ended 31 December 2022.

COST OF SALES

The Group's cost of sales increased by 36.8%, from US$87.2 million for the year ended 31 December 2021 to US$119.3 million for the year ended 31 December 2022. This was mainly due to the expansion of sales volume of the Group's products, and the increase in raw material cost, labor cost, energy price and other costs as compared with the same period in 2021, resulting in higher sales cost. The Group has taken various measures to improve production efficiency and reduce a wide range of costs in order to alleviate these cost pressures. The Group will continue to focus on and optimise the management of risk in association with cost.

As a percentage of total revenue, the Group's cost of sales decreased from 93.7% for the year ended 31 December 2021 to 89.8% for the year ended 31 December 2022. The Group will continue to strive to reduce the production cost per unit and stabilise production costs by developing new sourcing channels and re-selecting suppliers.

GROSS PROFIT AND GROSS PROFIT MARGIN

For the year ended 31 December 2022, the Group recorded a gross profit and gross profit margin of approximately US$13.6 million and 10.2% respectively (for the year ended 31 December 2021: gross profit and gross profit margin of approximately US$5.9 million and 6.3% respectively), representing an increase of US$7.7 million in gross profit and 3.9 percentage points in gross profit margin. In 2022, the Group's sales growth contributed to a significant improvement in its gross profit. In the domestic market, it was the Group's main strategy to consolidate the existing market share, while in the export market, it gradually implemented the price adjustment strategy to optimize its product sales structure, resulting in improved profitability, and hedging the profit pressure caused by higher raw material cost to some extent.

DISTRIBUTION EXPENSES

The Group's distribution expenses increased by 19.2%, from US$5.2 million for the year ended 31 December 2021 to US$6.2 million for the year ended 31 December 2022. The increase in distribution expenses was mainly attributable to the increase in transportation-related expenses resulting from the increasing export sales volume of the Group and the resumption of the store upgrade plans which were postponed due to the Pandemic in 2022. By working with distributors to upgrade stores and expand modern-oriented physical stores, the Group has provided consumers with more comfortable product display and maintenance service space. Such store upgrade plans are critical to future sales and operations.

TECHNOLOGY TRANSFER FEES

The technology transfer fees increased by 14.3% from US$0.7 million for the year ended 31 December 2021 to US$0.8 million for the year ended 31 December 2022, resulting from an increase in the sales of SYM-branded motorbikes in Vietnam and ASEAN countries.

ADMINISTRATIVE AND OTHER OPERATING EXPENSES

The Group's administrative and other operating expenses slightly increased by 1.4% from US$7.0 million for the year ended 31 December 2021 to US$7.1 million for the year ended 31 December 2022, mainly due to increase in professional services fees. The Group's administrative and other operating expenses is 5.3% of the Group's total revenue for the year ended 31 December 2022.

RESULTS FROM OPERATING ACTIVITIES

As a result of the factors discussed above, for the year ended 31 December 2022, the Group recorded a profit from operating activities of US$0.6 million (for the year ended 31 December 2021: loss from operating activities of US$6.6 million).

IMPAIRMENT LOSS ON OTHER PROPERTY, PLANT AND EQUIPMENT AND PREPAYMENTS FOR OTHER PROPERTY, PLANT AND EQUIPMENT

The Group suffered significant operating losses over the past few years due to the fierce competition in the motorbike industry and increase of manufacturing costs on new launched products, resulting in the poor results of the Group's manufacturing and sales of motorbikes segment, manufacturing and sales of spare parts and engines segment and moulds and services segment over the past few years. The Group considered it was an indication that the other property, plant and equipment for the manufacturing and sales of motorbikes segment, manufacturing and sales of spare parts and engines segment and moulds and services segment (the "Relevant PPE") and prepayments for other property, plant and equipment may be impaired. Accordingly, the Group carried out an impairment testing on the Relevant PPE and prepayments for other property, plant and equipment and noted an impairment loss of approximately US$0.8 million on the other property, plant and equipment and prepayments for other property, plant and equipment were required as at 31 December 2022.

NET FINANCE INCOME

The Group's net finance income decreased by 94.4%, from US$1.43 million for the year ended 31 December 2021 to US$0.08 million for the year ended 31 December 2022. Such decrease was mainly attributable to the recognition of foreign exchange losses of US$0.7 million arising from fluctuation of the Vietnamese Dong against the US dollar for 2022, increase in bank interest expense by US$0.4 million, increase in lease liabilities interest expense by US$0.1 million and offset by increase in bank interest income by US$0.2 million.

LOSS FOR THE YEAR AND NET LOSS MARGIN

As a result of the factors discussed above, the Group's net loss for the year ended 31 December 2022 amounted to US$0.2 million, representing a decrease of 96.4% as compared to a loss of US$5.6 million for the year ended 31 December 2021. The Group's net loss margin decreased 5.8 percentage points from 6.0% for the year ended 31 December 2021 to 0.2% for the year ended 31 December 2022.

LIQUIDITY AND FINANCIAL RESOURCES

As at 31 December 2022, the Group's net current assets amounted to US$44.3 million (31 December 2021: US$45.5 million) which consisted of current assets of US$118.1 million (31 December 2021: US$105.9million) and current liabilities of US$73.8 million (31 December 2021: US$60.4 million).

As at 31 December 2022, the Group's interest-bearing loans repayable within one year was US$40.2 million (31 December 2021: US$36.1 million). As at 31 December 2022, the Group had no interest-bearing loans repayable beyond one year (31 December 2021: Nil). As at 31 December 2022, the gearing ratio was 79.0% (31 December 2021: 69.0%) calculated by dividing total bank loans by total shareholders' equity.

As at 31 December 2022, the Group's cash and bank balances (including bank deposits), amounted to US$55.3 million, which mainly included US$47.9 million denominated in Vietnamese Dong, US$6.9 million denominated in US dollar and US$0.5 million denominated in New Taiwan Dollar (31 December 2021: US$50.6 million, which mainly included US$44.0 million denominated in Vietnamese Dong and US$6.3 million denominated in US dollar).

EXPOSURE TO FLUCTUATIONS IN EXCHANGE RATES

Transactions of the Group are mainly denominated in Vietnamese Dong and US dollar. The Group will closely monitor the trend of fluctuation exchange rate and strengthen relevant personnel's awareness of risk prevention to deal with exchange rate risks. The Group adopts conservative treasury policies in cash and financial management, with its cash generally placed in short-term deposits mostly denominated in Vietnamese Dong and US dollar. As at 31 December 2022, the Group did not use any financial instrument to hedge its foreign exchange ricks.

Management Discussion and Analysis

KEY FINANCIAL INDICATORS

For details of the key financial performance indicators to the performance of the Group's business, please refer to "Financial Summary" on page 3 of this annual report.

CAPITAL COMMITMENTS AND CONTINGENT LIABILITIES

The Group had no material capital commitments and contingent liabilities as at 31 December 2022.

MATERIAL ACQUISITIONS AND DISPOSALS OF SUBSIDIARIES AND ASSOCIATED COMPANIES

During the year ended 31 December 2022, the Group had no material acquisition or disposal of subsidiaries and associated companies.

SIGNIFICANT INVESTMENT HELD

During the year ended 31 December 2022, the Group did not hold any significant investment.

FUTURE PLANS FOR MATERIAL INVESTMENTS OR CAPITAL ASSETS

Save as disclosed in this report, the Group did not have any other specific plan for material investments or acquisitions of capital assets as at 31 December 2022.

PLEDGE ON ASSETS

As at 31 December 2022, the Group pledged its bank time deposits of US$24,809,910 as securities for banking facilities granted to the Group.

PURCHASE, SALE OR REDEMPTION OF THE COMPANY'S LISTED SECURITIES

During the year ended 31 December 2022, neither the Company nor any of its subsidiaries purchased, sold or redeemed any of the Company's listed securities.

MATTERS IN RELATION TO CAPITAL REDUCTION TO SUBSIDIARIES

During the year, Chin Zong Trading Co., Ltd ("Chin Zong", a company incorporated in Taiwan with limited liability), a wholly-owned subsidiary of the Company, reduced its capital by NT$65,000,000 in order to adjust its capital structure and improve the return on shareholders' equity, upon which the paid-in capital of Chin Zong was NT$85,000,000.

Save as disclosed above, the Group had no other capital reduction or disposal of subsidiaries and affiliates for the year ended 31 December 2022.

HUMAN RESOURCES AND REMUNERATION POLICIES

The Group currently offers competitive remuneration packages to its staff in Vietnam, Taiwan and Hong Kong, and regularly reviews its remuneration packages in light of the overall development of the Group. The Group's remuneration packages include basic salaries, bonuses, quality staff living quarters, training and development opportunities, medical benefits, an insurance plan and retirement benefits. As at 31 December 2022, the Group had 1,155 employees (2021: 1,116). The total amount of salaries and related costs for the year ended 31 December 2022 amounted to approximately US$12.1 million (2021: US$11.2 million).

PROSPECTS

Looking forward into 2023, factors such as inflation, monetary tightening and regional conflicts in various countries will continue to have a significant impact on the global economy. It is expected that the supply of various global and local raw materials, energy and packaging materials will also continue to be affected in 2023, maintaining the prices at a high level. In view of this, the Group will purchase raw materials and parts in a more flexible and diversified manner to stabilise its production cost, adjust and strengthen its sales strategies in a due course, and speed up new product development with a view to stabilising the pace of operation.

In 2023, the Group plans to roll out a number of new or modified motorbike models in the Vietnamese market and ASEAN countries market, including scooter, cub and electric motorbikes, so as to achieve product diversification and greater profitability. In terms of sales channel upgrading, the Group will improve the quality of existing stores focusing on the image building of benchmark stores in order to provide consumers with better space for product purchasing and maintenance, and to enhance brand awareness and reputation. In regard to our manufacturing plants and facilities, as the Vietnamese government accelerated the pace of urbanisation and societal transformation, the Group has relocated the manufacturing facilities in Bien Hoa City of Dong Nai Province to Nhon Trach Industrial Zone II in 2019. The Group will continue to review the strategic function value and asset value of the manufacturing plants and facilities in Bien Hoa City of Dong Nai Province, or the potential return on land development.

In addition, as disclosed in the announcement of the Company dated 14 May 2018, the Group proposed to establish a joint venture company for the purpose of investing in and development of a project of the Group in connection with the plots of land located at La Khe Ward, Ha Dong District, Hanoi City, Vietnam. The Group is still in discussion and negotiation with the relevant government authorities and the joint venture partner as to the application for the land development project and the timetable for the establishment of the joint venture company. Upon the formal documents for the approval of land development are issued by the Vietnamese government authorities, the manufacturing facilities of the Group in Ha Dong District will be moved out of their current location.

The Group will seize all available development opportunities to enhance its long-term profitability and maximise returns for the shareholders of the Company (the "Shareholders").

APPLICATION OF IPO PROCEEDS

The proceeds from the issuance of new shares in the initial public offering by the Company in December 2007, net of listing expenses, were approximately US$76.7 million, which will be used in accordance with the manners stated in the prospectus of the Company (the "Prospectus") and the announcement titled "change in use of proceeds" of the Company dated 10 May 2019 (the "Announcement").

The table below sets out the detailed items of the use of proceeds from the initial public offering as at 31 December 2022:

	Net proceeds from the initial public offering as stated in the Prospectus and the Announcement Approximately in *US$' million*	**Amounts utilised as at 31 December 2022 Approximately in** *US$' million*	**Balance unutilised as at 31 December 2022 Approximately in** *US$' million*
Construction of research and development centre in Vietnam	11.7	11.7	–
Expanding distribution channels in Vietnam			
– Upgrading of existing facilities	4.0	4.0	–
– Establishing of new facilities	15.0	15.0	–
Mergers and acquisitions	9.0	9.0	–
General working capital	2.7	2.7	–
Development of production sites as well as the relocation of existing production facilities	15.0	12.0	3.0
Land development	19.3	4.2	15.1
Total	76.7	58.6	18.1

The unutilised balance was placed as deposits (including bank deposits) with several reputable financial institutions. For further details, please see the paragraph above headed "Liquidity and Financial Resources".

The unutilised amount of net proceeds is expected to be fully utilised by 2027.

REVIEW OF ANNUAL RESULTS BY AUDIT COMMITTEE

The annual results for the year ended 31 December 2022 have been reviewed by the audit committee of the Company which was of the opinion that the preparation of such results complied with the applicable accounting standards and requirements.

FINAL DIVIDEND

The board (the "Board") of directors (the "Director(s)") of the Company does not recommend the payment of a final dividend for the year ended 31 December 2022.

OUR APPRECIATION

Lastly, on behalf of the Board, I hereby express my sincere gratitude to the Shareholders of the Company and the suppliers and customers of the Group for their unwavering support. We would also like to thank our dedicated staff for their hard work and contribution to the Group over last year.

By order of the Board
Vietnam Manufacturing and Export Processing (Holdings) Limited
Liu Wu Hsiung
Chairman

Hong Kong, 14 March 2023

The Board is committed to maintaining high standards of corporate governance. The principles of corporate governance adopted by the Company emphasize a Board of high quality, sound internal control, transparency and accountability to all Shareholders.

CORPORATE GOVERNANCE PRACTICES

During the year ended 31 December 2022, the Company has complied with the code provisions as set out in the Corporate Governance Code (the "Code") contained in Appendix 14 to the Rules Governing the Listing of Securities (the "Listing Rules") on The Stock Exchange of Hong Kong Limited (the "Stock Exchange"), except for the following deviation:

Pursuant to Rule 3.27A of the Listing Rules (previously paragraph A.5.1 of the code provision of the Code, which has been renumbered as Rule 3.27A of the Listing Rules with effect from 1 January 2022) and paragraph B.3.1 of the code provision of the Code provide that an issuer should establish a nomination committee with specific written terms of reference for the following duties: (i) review the structure, size and composition of the Board, (ii) select and nominate individuals to be appointed as directors, (iii) assess the independence of independent non-executive directors, and (iv) make recommendation to the Board on the appointment or reappointment of directors and succession planning for directors. The Company had not set up a nomination committee as all major decisions regarding the Board composition and its members were made in consultation with the Board in which all Directors would participate in the process and perform the duties of a nomination committee as contemplated in the Code. The Board considered that it was not necessary to establish a nomination committee given that the current arrangements meet the objective of the Code.

In view of the relevant Listing Rules and the Code amendments effective from 1 January 2022, the Company has set up a nomination committee (the "Nomination Committee") with its terms of reference with effect from 19 January 2022 and since then, the relevant deviation has been remediated.

COMPLIANCE WITH MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (the "Model Code") as set out in Appendix 10 to the Listing Rules as the code of conduct in respect of transactions in securities of the Company by the Directors. Having made specific enquiries with all the Directors, the Company confirms that the Directors have complied with the required standard set out in the Model Code for the year ended 31 December 2022.

THE BOARD OF DIRECTORS

The Board has a balance of skills and experience and a balanced composition of executive Directors and non-executive Directors and is responsible for the oversight of the management of the Group's business and affairs.

The principal roles of the Board are:

(a) to set the Group's objectives, strategies, policies and business plan;

(b) to monitor and control operating and financial performance by deciding the annual budget; and

(c) to set appropriate policies to manage risks in pursuit of the Group's strategic objectives.

The Board has delegated the day-to-day operational responsibilities to the executive Directors and senior management of the Company. The executive Directors and senior management of the Company, who meet on a regular basis and are accountable to the Board, collectively make principal management decisions according to the delegated authorities from the Board.

The Company has established mechanisms to ensure independent views and input are available to the Board including but not limited to, all Directors are entitled to retain independent professional advisors as and when it is required, all Directors are encouraged to express their views in an open and candid manner during the Board or committees meetings and that the number of independent non-executive Directors comply with the requirements of the Listing Rules that at least one-third of the Board members are independent non-executive Directors. The implementation and effectiveness of such mechanisms are reviewed on an annual basis by the Board.

COMPOSITION OF THE BOARD

The members of the Board for the year ended 31 December 2022 and as at the date of this annual report are:

Executive Directors

Mr. Liu Wu Hsiung *(Chairman)*
Mr. Huang Tsung Yeh *(Chief Executive Officer)* (appointed on 28 March 2022)
Mr. Lin Chun Yu
Mr. Cheng Hsu Chi (resigned on 24 March 2022)

Non-executive Directors

Mr. Chiang Chin Yung
Mr. Chen Hsu Pin
Ms. Wu Li Chu

Independent Non-executive Directors

Ms. Lin Ching Ching
Ms. Wu Kwei Mei
Mr. Cheung On Kit Andrew

The Directors (including the chairman of the Board and the chief executive officer) have no financial, business, family or other material/relevant relationships with each other. The biographical details of the current Directors are set out in the "Directors and Senior Management Profile" section on pages 19 to 21 of this annual report.

The Company has also maintained on its website and that of the Stock Exchange an updated list of the Directors identifying their roles and functions. The independent non-executive Directors are explicitly identified in all of the Company's corporate communications.

BOARD MEETINGS AND GENERAL MEETINGS

A Board meeting is held at least quarterly, and more frequently as and when business or operational needs arise. The Board meetings are also held whenever necessary to discuss various corporate matters including corporate actions, new major investments and significant changes in regulatory requirements that affect the Group. Board meetings are also held to discuss and review the quarterly, interim and annual results of the Group before the publication of results announcements, and to discuss and approve the Group's annual budget and business plans.

11 Board meetings and 2 general meetings (including annual general meeting and extraordinary general meetings) were held during the year ended 31 December 2022. The attendance record of each Director at the Board meetings and the general meetings is set out in the table below:

	Number of Attendance/ Number of Meetings During Tenure	
Name of Directors	**Board meetings**	**General meetings**
Mr. Liu Wu Hsiung	11/11	2/2
Mr. Huang Tsung Yeh (appointed on 28 March 2022)	6/6	1/1
Mr. Lin Chun Yu	11/11	2/2
Mr. Chiang Chin Yung	11/11	1/2
Mr. Chen Hsu Pin	11/11	0/2
Ms. Wu Li Chu	9/11	0/2
Ms. Lin Ching Ching	11/11	2/2
Ms. Wu Kwei Mei	11/11	1/2
Mr. Cheung On Kit Andrew	10/11	2/2
Mr. Cheng Hsu Chi (resigned on 24 March 2022)	3/3	1/1

Minutes of Board meetings and Board committee meetings are recorded in appropriate detail and are kept by the Company appropriately. Draft minutes are circulated to the Directors for comment within a reasonable period of time after each meeting and the final version is open for the Directors' inspection. If necessary, the Directors may, upon reasonable request, seek independent professional advice in appropriate circumstances, at the Company's expense.

THE CHAIRMAN AND CHIEF EXECUTIVE OFFICER

Under code provision C.2.1 of the Code, the roles of the chairman and the chief executive officer should be separated and should not be performed by the same individual. As at the date of this report, the chairman and chief executive officer of the Company are Mr. Liu Wu Hsiung and Mr. Huang Tsung Yeh respectively.

The roles and responsibilities of the chairman and the chief executive officer of the Company are separated so as to ensure a balance of power and authority. This balance ensures that all matters brought before the Board are fully and objectively discussed, taking into account the interests of Shareholders as a whole, including in particular, those of the minority Shareholders.

TERM OF NON-EXECUTIVE DIRECTORS

Each of the non-executive Directors (including the independent non-executive Directors) is appointed for a specific term of three years, subject to re-election at annual general meetings of the Company in accordance with the articles of association of the Company ("Articles of Association").

CONFIRMATION OF INDEPENDENCE OF INDEPENDENT NON-EXECUTIVE DIRECTORS

The Company has received annual written confirmations from each of the independent non-executive Directors of their independence pursuant to Rule 3.13 of the Listing Rules and considers them are independent.

REMUNERATION OF DIRECTORS AND FIVE EMPLOYEES WITH HIGHEST EMOLUMENTS

Details of the remuneration of the Directors and five employees with the highest remuneration for the year ended 31 December 2022 are set out in note 8 and note 9 to the financial statements, respectively.

BOARD COMMITTEES

The Company currently maintains three board committees (namely the audit committee, the remuneration committee and the Nomination Committee) with defined terms of reference which are posted on the websites of the Company and the Stock Exchange.

REMUNERATION COMMITTEE

The Company has established a remuneration committee (the "Remuneration Committee") which consists of two independent non-executive Directors and one executive Director. The members of the Remuneration Committee for the year ended 31 December 2022 were Ms. Lin Ching Ching (Chairman), Ms. Wu Kwei Mei and Mr. Liu Wu Hsiung.

The Remuneration Committee is responsible for ensuring that the Company has formal and transparent procedures for developing and overseeing its policies on the remuneration of the Directors and senior management of the Company. The Remuneration Committee's authorities and duties are set out in its written terms of reference.

The terms of reference of the Remuneration Committee are aligned with the relevant provisions under the Code. The primary duties of the Remuneration Committee include:

(a) considering and recommending the Board on the Company's policy and structure of remuneration of the Directors and senior management of the Company and on the establishment of a formal and transparent procedure for developing remuneration policy;
(b) recommending the Board on the specific remuneration packages of the executive Directors and senior management of the Company;
(c) recommending for the Board's approval the remuneration of the non-executive Directors;
(d) reviewing and approving performance-based remuneration by reference to corporate goals and objectives resolved by the Board from time to time;
(e) reviewing and approving the compensation payable to the executive Directors and senior management of the Company in connection with any loss or termination of their office or appointment;
(f) reviewing and approving compensative arrangements relating to dismissal or removal of Directors for misconduct; and
(g) reviewing and/or approving matters relating to share schemes under Chapter 17 of the Listing Rules.

During the year ended 31 December 2022, the Remuneration Committee held four meetings. The Remuneration Committee recommended to the Board on the overall remuneration policy and structure relating to executive Directors and senior management of the Company and ensure none of the Directors determine their own remuneration. The Remuneration Committee also reviewed the discretionary bonuses for the year ended 31 December 2021 for the two executive Directors, with a recommendation to the Board for approval. It also approved and recommended to the Board of the proposed amendments to the terms of reference of the Remuneration Committee.

The individual attendance record of each members of the meetings of the Remuneration Committee during the year ended 31 December 2022 is set out below:

Name of Directors	Number of Attendance/ Number of Committee Meetings During Tenure
Ms. Lin Ching Ching	4/4
Ms. Wu Kwei Mei	4/4
Mr. Liu Wu Hsiung	4/4

AUDIT COMMITTEE

The Company has established an audit committee (the "Audit Committee") which consists of three independent non-executive Directors. The members of the Audit Committee for the year ended 31 December 2022 were Ms. Lin Ching Ching (Chairman), Ms. Wu Kwei Mei and Mr. Cheung On Kit Andrew.

The terms of reference of the Audit Committee are aligned with the relevant provisions set out in the Code. The primary duties of the Audit Committee include:

(a) considering, and making recommendation to the Board on, the appointment, reappointment and removal of the external auditor, and approving the audit fee and other terms of engagement of the external auditor, and any questions of resignation or dismissal of the external auditor;
(b) discussing with external auditors before the audit commences, the nature and scope of the audit and reporting obligations;
(c) reviewing quarterly, interim and annual financial statements before submission to the Board;
(d) discussing problems and reservations arising from the audits, and any matters the external auditors may wish to discuss; and
(e) considering and reviewing the Company's financial report, risk management and internal control systems.

During the year ended 31 December 2022, the Audit Committee held four meetings and performed their duties. The Audit Committee met with the external auditors to discuss and review areas of concern, risk management and internal control system, and reviewed the interim and annual financial statements of the Group before submission to the Board. The Audit Committee has reviewed with management of the Company the accounting principles and practices adopted by the Group and discussed risk management and internal control and financial reporting matters including the review of the audited financial statements, the interim and annual reports. The Audit Committee received comprehensive reports from the management and the internal and external auditors of the Company for the meetings held. The annual results for the year ended 31 December 2022 have been reviewed by the Auditor Committee, which was of the opinion that the preparation of such results complied with the applicable accounting standards and requirements.

The individual attendance record of each member at the meetings of the Audit Committee during the ended 31 December 2022 is set out below:

Name of Directors	Number of Attendance/ Number of Committee Meetings During Tenure
Ms. Lin Ching Ching	4/4
Ms. Wu Kwei Mei	4/4
Mr. Cheung On Kit Andrew	3/4

NOMINATION COMMITTEE

The Company has established a Nomination Committee which consists of two independent non-executive Directors and one executive Director. The members of the Nomination Committee for the year ended 31 December 2022 were Mr. Liu Wu Hsiung (Chairman), Ms. Lin Ching Ching and Mr. Cheung On Kit Andrew.

The terms of reference of the Nomination Committee are aligned with the relevant provisions set out in the Code. The primary duties of the Nomination Committee include:

(a) reviewing the structure, size and composition (including the skills, knowledge and experience) of the Board at least annually and make recommendations to the Board regarding any proposed changes;
(b) identifying individuals suitably qualified to become Board members and select or make recommendations to the Board on the selection of individuals nominated for directorships;
(c) assessing the independence of independent non-executive Directors;
(d) reviewing the Board's diversity policy on an annual basis; and make disclosure of its review results in the Corporate Governance Report annually; and
(e) making recommendations to the Board on relevant matters relating to the appointment or re-appointment of Directors and succession planning for Directors in particular the chairman and the chief executive officer.

The role of the Nomination Committee is to make recommendations to the Board on the appointment of Directors, evaluation of Board composition and the management of Board succession with reference to certain guidelines as endorsed by the Nomination Committee. These guidelines include appropriate professional knowledge and industry experience, personal ethnics, integrity and personal skills, time commitments of members, diversity of the Board members, the potential contribution could be brought to the Board and the independency of the nominees for the position of independent non-executive Directors. During the year ended 31 December 2022, the Nomination Committee held two meetings to discuss the Board structure, size and composition, making a recommendation to the Board for approval of the appointment of a new Director and making recommendation as to which Directors shall retire by rotation at the forthcoming annual general meeting and, being eligible, offer themselves for re-election.

The Company has adopted a board diversity policy which sets out the approach to achieve diversity of the Board members. In designing the Board's composition, Board diversity has been considered from a number of aspects, including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service. All Board appointments will be based on meritocracy and candidates will be considered against objective criteria, having due regard for the benefits of diversity on the Board. The Nomination Committee considers that it has made progress on achieving diversity of the Board by including members of different gender and education background and professional qualifications.

In terms of gender diversity, the gender diversity of the Board members has been demonstrated with three female Directors among ten Directors on the Board during the year ended 31 December 2022. The Nomination Committee will continue to search for and identify suitably qualified candidates and make nomination recommendations to the Board as and when appropriate to ensure there will be successors to the Board from time to time to maintain gender diversity wherever necessary.

As at 31 December 2022, the Group had 919 male employees and 236 female employees and the male-to-female ratio in the workforce, including the senior management, was approximately 5:1.

The Group will continue to take gender diversity into consideration during recruitment and increase the female proportion at all levels over time with the ultimate goal of achieving gender parity, such that there is a pipeline of female senior management and potential successors to the Board in the future.

The individual attendance record of each member at the meetings of the Audit Committee during the ended 31 December 2022 is set out below:

Name of Directors	**Number of Attendance/ Number of Committee Meetings During Tenure**
Mr. Liu Wu Hsiung	2/2
Ms. Lin Ching Ching	2/2
Mr. Cheung On Kit Andrew	2/2

EXTERNAL AUDITOR AND AUDITOR'S REMUNERATION

For the year ended 31 December 2022, the remunerations paid or payable to KPMG, the external auditor of the Company, in respect of its audit services and non-audit services are US$358,408 and US$4,586 (2021: US$353,465 and US$4,624), respectively. The non-audit services for the year of 2022 mainly consist of tax services.

There was no disagreement between the Board and the Auditor Committee on the selection and appointment of the external auditor during the year ended 31 December 2022.

COMPANY SECRETARY

Ms. Lee Angel Pui Shan ("Ms. Lee") is the company secretary of the Company. She is a corporate secretarial executive of SWCS Corporate Services Group (Hong Kong) Limited ("SWCS") and has extensive company secretarial professional experience. Her primary contact person with the Company is Mr. LIN Chun Yu, the executive Director and the chief financial officer of the Company.

Ms. Lee is responsible for providing advice to the Board on corporate governance matters. Ms. Lee has confirmed that she has taken no less than 15 hours of relevant professional training for the year ended 31 December 2022.

SAFEGUARDING THE INTERESTS OF INDEPENDENT SHAREHOLDERS

Mechanisms are in place to safeguard the interests of independent Shareholders in the decision making process in relation to (i) the deed of non-competition dated 26 November 2007 entered into between Sanyang Motor Co., Limited, the then executive and non-executive Directors (collectively, the "Covenantors") and the Company (the "Deed of Non-competition"); and (ii) the continuing connected transactions entered into by the Group, as described below.

DEED OF NON-COMPETITION

The independent non-executive Directors are to review whether or not to pursue any investment or other commercial opportunity referred to the Company by any of the Covenantors under the Deed of Non-competition (to the extent such opportunity arises and is referred by the Covenantors).

For the year ended 31 December 2022, each of the Covenantors also declares that it/he/she has complied with the Deed of Non-competition. Having made specific enquiries with all of the Covenantors, the independent non-executive Directors confirmed the Covenantors' compliance with the Deed of Non-competition for the year ended 31 December 2022.

CONTINUING CONNECTED TRANSACTIONS

The continuing connected transactions entered into by the Group for the year ended 31 December 2022 were based on normal commercial terms, in the ordinary and usual course of business of the Group and were conducted on a fair and reasonable basis.

The independent non-executive Directors reviewed the terms of the continuing connected transactions entered into by the Group during the year ended 31 December 2022 to ensure that the terms of such transactions were in the best interests of the Company and the Shareholders as a whole.

The Company's external auditor, KPMG, reviewed the continuing connected transactions entered into by the Group during the year ended 31 December 2022 and provided a letter to the Board confirming (i) the matters set out in Rule 14A.56 of the Listing Rules; and (ii) that the amounts for the relevant continuing connected transactions have not exceeded the relevant proposed annual caps.

Details of the continuing connected transactions entered into by the Group during the year ended 31 December 2022 are set out on pages 27 to 28 of this annual report.

INVESTOR AND SHAREHOLDERS RELATIONS

The Board recognizes the importance of maintaining clear, timely and effective communication with the Shareholders and the Company's investors. The Board also recognizes that the effective communication with the Company's investors is the key to establishing investor confidence and attracting new investors. The Company has adopted a formal shareholders' communication policy which sets out the channels of communication with the Shareholders and other stakeholders, including general meetings, corporate website and corporate communication which includes documents issued by the Company for the information and action of Shareholders including but not limited to annual/interim report, circulars and announcements. Shareholders may send by email to the Company's email address (info@vmeph.com) or by post to the Company's principal place of business in Hong Kong (40th Floor, Dah Sing Financial Centre, 248 Queen's Road East, Wanchai, Hong Kong) to raise enquiries regarding the Company to the Board.

The Group is committed to maintaining a high degree of transparency to ensure that the Company's investors and the Shareholders are receiving accurate, clear, comprehensive and timely information relating to the Group via the publication of annual reports, interim reports, quarterly reports, announcements and circulars on the website of the Stock Exchange, and also via the Company's website at www.vmeph.com.

The Board continues to maintain regular dialogue with institutional investors and analysts to keep them informed of the Group's strategies, operations, management and plans. The Directors and the committee members are available to answer questions in the annual general meeting of the Company. External auditors are also available at such annual general meeting to address Shareholders' queries. Separate resolutions are proposed at such annual general meeting on each substantially separate issue.

The Company has held the annual general meeting for the year ended 31 December 2021 on 24 June 2022. The annual general meeting enabled the Directors to exchange views with the Shareholders and answer their questions.

The Company has reviewed the shareholders' communication policy and its implementation, and believes that during the year ended 31 December 2022, the policy and its implementation remained effective.

SHAREHOLDERS' RIGHTS

Shareholders may put forward their proposals or inquiries to the Board by sending their written request to the Company's principal place of business in Hong Kong at 40th Floor, Dah Sing Financial Centre, No. 248 Queen's Road East, Wanchai, Hong Kong, for the attention of the Board.

(a) Procedures for Shareholders to convene an extraordinary general meeting ("EGM")

The Board shall, on the requisition in writing of one or more Shareholders holding at the date of deposit of requisition of not less than one-tenth of the paid-up capital of the Company upon which all calls or other sums then due have been paid; and the EGM shall be held within two months after the deposit of such requisition. The written request, stating the objects of the EGM and signed by the Shareholders concerned, should be deposited at the Company's principal place of business in Hong Kong at 40th Floor, Dah Sing Financial Centre, No. 248 Queen's Road East, Wanchai, Hong Kong, for the attention of the Board. If within twenty-one days of such deposit the Board fails to proceed to convene the EGM, the requisitionist(s) or any of them representing more than one half of the total voting rights of all of them, may themselves convene a EGM, and all reasonable expenses incurred by the requisitionist(s) as a result of the failure of the Board shall be reimbursed to the requisitionist(s) by the Company.

(b) Procedures for putting forward proposals at shareholders' meeting

There are no provisions under the Company's Articles of Association or the Companies Act, Chapter 22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands regarding procedures for Shareholders to put forward proposals at general meetings other than a proposal of a person for election as Director. Shareholders may follow the procedures for convening an EGM in putting forward proposals at a general meeting.

Pursuant to Article 88 of the Company's Articles of Association, no person other than a retiring director shall, unless recommended by the Board for election, be eligible for election to the office of director at any general meeting, unless a Shareholder other than the person to be proposed shall have given a notice in writing of the intention to propose that person for election as a Director and also a notice in writing by that person of his willingness to be elected shall have been given to the Company in the period commencing no earlier than the day after the despatch of the notice of the meeting appointed for such election and ending no later than 7 days prior to the date of such meeting, provided that the minimum length of such notice period shall be at least 7 days. The written notice must state that person's biographical details as required by Rule 13.51(2) of the Listing Rules.

(c) Shareholders' enquiries

Shareholders should direct their questions about their shareholdings to the Company's Hong Kong branch share registrar. Shareholders and potential investors of the Company may at any time make a request for the Company's information to the extent that such information is publicly available. Shareholders may also make enquiries to the Board by writing to the company secretary of the Company, at the Company's principal place of business in Hong Kong at 40th Floor, Dah Sing Financial Centre, No. 248 Queen's Road East, Wanchai, Hong Kong.

CONSTITUTIONAL DOCUMENTS

For the year ended 31 December 2022, the proposed amendments to the Articles of Association of the Company was approved by the annual general meeting held on 24 June 2022 and has become effective. For details, please refer to the announcement and the circular of the Company dated 28 April 2022.

An amended and restated of the Company's Articles of Association has been published on the Company's website and the Stock Exchange's website.

Save as disclosed above, no other change has been made in the Company's Articles of Association for the year ended 31 December 2022.

Directors and Senior Management Profile

Mr. Lin joined the Group in June 2015, and is currently the chief financial officer of the Company and the head of the finance department of various major subsidiaries of the Group, including VMEP and Vietnam Casting Forge Precision Limited ("VCFP") and the assistant vice president in the real estate development department of VMEP. Before joining the Group in June 2015, he was the finance manager of Sanyang Motor Vietnam Co., Ltd., a subsidiary of Sanyang. which is the ultimate holding company of the Group, from 2010 to 2015. Mr. Lin graduated from the Fu Jen Catholic University in Taiwan with a bachelor degree in accounting in 1997.

Non-executive Directors

Mr. Chiang Chin Yung (江金鏞), aged 71, was appointed as an executive Director of the Company in August 2018 and re-designated as a Non-executive Director on 1 September 2021. Mr. Chiang acts as the director of the subsidiaries of the Group, namely VMEP currently. Prior to joining the Group, Mr. Chiang worked in Sanyang from 1974 onwards and mainly responsible for finance, accounting, and administration of Sanyang Group. He served as a vice president in finance sector and administration sector of Sanyang for the period from 2003 to 2016 and retired from Sanyang Group on December 2016. Mr. Chiang has over 40 years of experience in the motor vehicle and motorcycle industry acquired through his work experience at Sanyang Group.

Mr. Chen Hsu Pin (陳旭斌), aged 66, was appointed as a non-executive Director in April 2021. He has over 35 years of experience in the motor vehicle industry which he has acquired through his work experience and leadership role at Sanyang Group. He has joined Sanyang Group since 1983, and had worked in various departments of Sanyang Group including research and development, sales, management and marketing. He was the general manager of Sanyang's subsidiaries, namely, Xiamen Xiashing Motorcycle Co., Ltd and Three Brothers Machinery Industrial Co., Ltd. Mr. Chen is the vice president in president office of Sanyang and a director of a few subsidiaries of Sanyang. He graduated from the Chung Yuan Christian University, Taiwan with a bachelor degree in mechanical engineering in 1979 and the Chiao Tung University, Taiwan with a master degree in mechanical engineering in 1983.

Ms. Wu Li Chu (吳麗珠), aged 57, was appointed as an executive Director of the Company in August 2015 and re-designated as a non-executive Director of the Company on 27 June 2016. She is currently the vice chairman of Sanyang and a director of various subsidiaries of Sanyang Group. She has also worked as the finance manager at Jiou Ding Construction Co., Ltd., and finance and administration officer at Ying Cheng Construction Co., Ltd. Ms. Wu has over 25 years of experience in finance, administration and management by holding leader positions in companies in the construction and manufacturing industry in Taiwan. Ms. Wu also holds an executive master degree in business administration (EMBA) from the Nanjing Normal University.

Independent non-executive Directors

Ms. Lin Ching Ching (林青青), aged 58, was appointed as an independent non-executive Director of the Company in November 2007. Ms. Lin is the chairman of the Audit Committee and the Remuneration Committee and a member of the Nomination Committee. Ms. Lin was the supervisor of Sea Sonic Electronics Co., Ltd. (a publicly-traded company on the Taiwan Stock Exchange) from June 2017 to June 2020. Ms. Lin has over 25 years of experience in the finance industry and has held senior financial management positions in various companies, including Deloitte & Touche, Corporate Finance Co., Ltd. and Citibank, N.A., Taipei. She graduated from Eastern Michigan University with a master's degree in business administration in 1991 and graduated from Fu Jen Catholic University in Taiwan with a bachelor's degree in accounting in 1987.

Ms. Wu Kwei Mei (吳貴美), aged 79, was appointed as an independent non-executive Director of the Company in August 2013, and she is also a member of the Remuneration Committee and the Audit Committee. Ms. Wu worked in the Department of Mathematics at the Taiwan University as an associate professor and an instructor from 1972 to 2009. She received a bachelor's degree in Mathematics from the Taiwan University in 1965 and a master's degree in Mathematics from the University of New Orleans in the United States in 1967.

Mr. Cheung On Kit Andrew (張安杰), aged 43, was appointed as an independent non-executive Director of the Company in September 2020. Mr. Cheung is also a member of the Audit Committee and the Nomination Committee.

Mr. Cheung is an executive director and a responsible officer of Opus Capital Limited. Mr. Cheung has over 18 years of experience in the financial industry spanning across corporate finance advisory, mergers and acquisitions advisory and financial analysis. Mr. Cheung is a fellow of the Hong Kong Securities and Investment Institute and a member of Chartered Accountants Australia and New Zealand and the Hong Kong Independent Non-Executive Director Association. Mr. Cheung was an independent non-executive director of Universal Star (Holdings) Limited (stock code: 2346) from August 2022 to January 2023.

Prior to joining Opus Capital Limited, Mr. Cheung held senior execution positions with CCB International Capital Limited and Oceanwide Capital Limited (currently known as China Tonghai Capital Limited), the investment banking arm of China Oceanwide International Financial Limited (currently known as China Tonghai International Financial Limited) (stock code: 952). Before that, he was an associate director at Somerley Capital Limited, the principal subsidiary of Somerley Capital Holdings Limited (stock code: 8439) from 2010 to 2017. Mr. Cheung had also worked in the mergers and acquisitions department of KPMG Hong Kong and Deloitte's corporate finance departments in Australia and Singapore between 2007 and 2009.

Mr. Cheung obtained his Master of Commerce (Funds Management) at The University of New South Wales, Australia. He also received his Bachelor of Commerce (Accounting)/Bachelor of Business Administration at Macquarie University, Australia.

COMPANY SECRETARY

Ms. Lee Angel Pui Shan (李謝佩珊) was appointed as the company secretary of the Company from 4 March 2022. Ms. Lee is a corporate secretarial executive of SWCS Corporate Services Group (Hong Kong) Limited ("SWCS") and has extensive company secretarial professional experience. Ms. Lee holds a bachelor's degree in accounting. She is certified public accountant of The Hong Kong Institute of Certified Public Accountants, and an associate member of The Chartered Governance Institute. Before joining SWCS, she worked for Ernst & Young (Hong Kong and Beijing), participated in a number of Chinese overseas listings, and was also responsible for many internal control projects to meet the requirements of Hong Kong and overseas listings.

The Board hereby present their report and the audited financial statements of the Company and the Group for the year ended 31 December 2022.

DIRECTORS

The Directors of the Company for the year ended 31 December 2022 and up to the date of this annual report were:

Executive Directors

Mr. Liu Wu Hsiung *(Chairman)*
Mr. Huang Tsung Yeh *(Chief Executive Officer)* (appointed on 28 March 2022)
Mr. Lin Chun Yu
Mr. Cheng Hsu Chi (resigned on 24 March 2022)

Non-executive Directors

Mr. Chiang Chin Yung
Mr. Chen Hsu Pin
Ms. Wu Li Chu

Independent Non-executive Directors

Ms. Lin Ching Ching
Ms. Wu Kwei Mei
Mr. Cheung On Kit Andrew

PRINCIPAL ACTIVITIES AND BUSINESS REVIEW

The principal activity of the Company is investment holding and the principal activities of the Group are manufacturing and sale of motorbikes, related spare parts and engines and provision of motorbike maintenance services. Particulars of the principal activities of the Company's major subsidiaries are set out in note 28 to the consolidated financial statements.

Further discussion and analysis of these activities as required by Schedule 5 to the Hong Kong Companies Ordinance can be found in the Management Discussion and Analysis set out on pages 4 to 9 of this annual report. This discussion forms part of this directors' report.

RESULTS AND DIVIDENDS

The Group's result for the year ended 31 December 2022 and the financial position of the Group as at that date are set out in the financial statements on pages 56 to 106 of this annual report.

The Board does not recommend the payment of a final dividend for the year ended 31 December 2022 (2021: Nil).

DIVIDEND POLICY

The Company has adopted a dividend policy, the objective of which is to allow shareholders of the Company to participate in the Company's profits whilst retaining adequate reserves to sustain the Group's future growth. The payment of dividend is also subject to any restrictions under the applicable laws and the requirements of the Articles of Association of the Company. In deciding whether to declare any dividend, the Board will take into account a number of factors, including the financial results, the distributable reserves, the operations and liquidity requirements, and the current and future development plans of the Company.

The dividend policy of the Company will continue to be reviewed from time to time and there is no assurance that any dividend will be paid in any particular amount for any given period or that the Company is obliged to declare any dividend at any time or from time to time.

FINANCIAL SUMMARY

A financial summary of the results and the financial position of the Group for the last five financial years for the year ended 31 December 2022 is set out on page 3 on this annual report.

TAX RELIEF

The Directors are not aware of any tax relief available to the Shareholders by reason of their holding of the Company's securities.

OTHER PROPERTY, PLANT AND EQUIPMENT

Details of movements in the other property, plant and equipment of the Group during the year ended 31 December 2022 are set out in note 11 to the financial statements.

BANK LOANS

Details of bank loans are set out in note 17 to the financial statements.

SHARE CAPITAL

Details of movements in the Group's registered and issued share capital for the year ended 31 December 2022 are set out in note 21 to the financial statements.

PRE-EMPTIVE RIGHTS

There are no provisions for pre-emptive rights under the memorandum and Articles of Association of the Company or the Companies Laws of the Cayman Islands which would oblige the Company to offer new shares on a pro-rata basis to the existing Shareholders.

PURCHASE, REDEMPTION OR SALE OF LISTED SECURITIES OF THE COMPANY

Neither the Company, nor any of its subsidiaries purchased, redeemed or sold any of the Company's listed securities for the year ended 31 December 2022.

RESERVES

Details of movements in the reserves of the Company and the Group for the year ended 31 December 2022 are set out in note 21 to the financial statements and in the consolidated statement of changes in equity, respectively. The Company's reserves available for distribution to Shareholders as at 31 December 2022 was US$48,780,037.

MAJOR CUSTOMERS AND SUPPLIERS

The percentages of sales and purchases for the year attributable to the Group's major customers and suppliers were as follows:

(1) The aggregate amount of turnover attributable to the Group's five largest customers represented 64.5% of the Group's total turnover. The amount of sales to the Group's largest customer represented 31.7% of the Group's total turnover.

(2) The aggregate amount of purchases attributable to the Group's five largest suppliers represented 50.1% of the Group's total purchases. The amount of purchases from the Group's largest supplier represented 29.5% of the Group's total purchases.

Among them, Xiamen Xiashing Motorcycle Co., Ltd. and Sanyang Global Co., Ltd. (subsidiaries of Sanyang, the ultimate controlling shareholder of the Group) and Vietnam Three Brothers Machinery Industry Co., Limited (an associate of the Company and a non-wholly owned subsidiary of Sanyang) were the top three suppliers of the Company respectively.

Save as disclosed above, none of the Directors of the Company or any of their associates or any Shareholders (which, to the best knowledge of the Directors, own more than 5% of the Company's share capital) had any beneficial interest in the Group's five largest customers or suppliers.

RELATIONSHIP WITH SUPPLIERS AND CUSTOMERS

The Group has maintained close relationships with a number of suppliers and takes great care to ensure that they share the Group's commitment on quality and ethics. The Group carefully selects and requires the suppliers to satisfy certain assessment criteria including, experience, reputation, ability to produce high-quality products and quality control effectiveness.

The Group is committed to offer a wide range of motorbikes models and motorbike engines and parts to its customers. The Group has also been aiming to provide quality services to its clients in order to maintain continuous relationship. The Group stays connected with its customers. The Group maintains communications with its customers through various channels like the Company's website, telephone, direct mail and marketing materials.

RELATIONSHIP WITH EMPLOYEES

The Group understands that employees are valuable assets to the Group and on which the Group's success depends. The Group provides competitive remuneration packages to attract and motivate the employees. The Group regularly reviews the remuneration packages of employees and makes necessary adjustments to conform with the market standard. The Group also places emphasis on the training and development of staff. In particular, the Group focuses on the training of management and key personnel to develop their management and decision-making abilities to enhance their work performance.

RETIREMENT BENEFITS SCHEMES

Details of the retirement benefits schemes participated by the Group are set out in note 6(b) to the consolidated financial statements.

DONATIONS

For the year ended 31 December 2022, the Group made charitable and other donations amounted to about US$6,600.

COMPLIANCE WITH LAWS AND REGULATIONS

During the year ended 31 December 2022, as far as the Company is aware, there is no material breach of or non-compliance with applicable laws and regulations by the Group which has a significant impact on its business and operations.

RETIREMENT OF DIRECTORS

Pursuant to article 87(1) of the Articles of Association of the Company, one third of the Directors for the time being (or, if their number is not a multiple of three (3), the number nearest to but not less than one third) shall retire from office by rotation at each annual general meeting provided that every Director shall be subject to retirement at an annual general meeting at least once every three years. Further, article 86(3) of the Articles of Association of the Company, provides that any Director appointed by the Board to fill a casual vacancy shall hold office until the first general meeting of Shareholders after his appointment and be subject to re-election at such meeting and any Director appointed by the Board as an addition to the existing Board shall hold office only until the next following annual general meeting of the Company and shall then be eligible for re-election.

A circular containing the detailed information of the retiring Directors at the forthcoming annual general meeting will be sent in accordance with Articles of Association of the Company and the Listing Rules.

DIRECTORS AND SENIOR MANAGEMENT'S BIOGRAPHIES

Biographical details of the current Directors and senior management of the Group are set out in the section headed "Directors and Senior Management Profile" in this annual report.

DIRECTORS' SERVICE CONTRACTS

Each of the executive Directors, non-executive Directors and independent non-executive Directors has entered into a service contract with the Company. None of the Directors have entered into any service contract with the Company which is not determinable by the Company within one year without payment of compensation, other than statutory compensation.

DIRECTORS' REMUNERATION

The Directors' remuneration is determined by the Board with reference to the Company's operating results, individual performance and comparable market statistics. Details of the Directors' remuneration are set out in note 8 to the financial statements.

DIRECTORS' AND CONTROLLING SHAREHOLDERS' INTERESTS IN CONTRACTS

Details of the connected transactions and the related party transactions during the year ended 31 December 2022 are set out on page 27 and page 102 of this annual report respectively. Save as disclosed in this report, none of the Directors or any entity connected with the Directors or controlling shareholders of the Company or its subsidiaries had a material interest, either directly or indirectly, in any transactions, arrangements and contract of significance to the business of the Group to which the Company, or any of the subsidiaries of the Company, or any of the Company's holding companies, or any of the subsidiaries of such holding companies, was a party, which subsisted at the end of the Year or at any time during the year.

DIRECTORS' RIGHTS TO ACQUIRE SHARES

For the year ended 31 December 2022, no rights to acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other body corporate, granted to any Director or their respective spouses or minor children aged under 18, or were such rights exercised by them, or was the Company, or any of the subsidiaries of the Company, or any of the Company's holding companies, or any of the subsidiaries of such holding companies a party to any arrangement to enable the Directors to acquire such benefits through such means.

INTERESTS AND SHORT POSITIONS OF DIRECTORS AND CHIEF EXECUTIVE OF THE COMPANY IN SHARES, UNDERLYING SHARES AND DEBENTURES OF THE COMPANY OR ITS ASSOCIATED CORPORATION

As at 31 December 2022, the interests and short positions of the Directors and chief executive of the Company in the shares, underlying shares or debentures of the Company or any of its associated corporations (within the meaning of Part XV of the SFO, which were required to be notified to the Company and the Stock Exchange pursuant to Divisions 7 and 8 of Part XV of the SFO (including those taken or deemed as their interests and short position in accordance with such provisions of the SFO), or which were required, pursuant to Section 352 of the SFO, to be entered in the register kept by the Company referred to therein, or which were required, pursuant to the Model Code to be notified to the Company and the Stock Exchange were as follows.

Interests and short positions in the shares of Sanyang Motor Company Limited

Name of Directors	Types of Shares	Capacity	Number of Shares held *(shares)*	Approximate percentage of total share capital *(%)*[1]
Mr. Liu Wu Hsiung	Ordinary Shares	Beneficial Owner	111,380 (L)	0.014%
Mr. Chiang Chin Yung	Ordinary Shares	Beneficial Owner	64,480 (L)	0.008%
Ms. Wu Li Chu	Ordinary Shares	Beneficial Owner	17,046,560 (L)	2.138%

(L) – Long position

Note:

1. The calculation is based on the total number of 797,489,604 shares of Sanyang Motor Company Limited in issue as at 31 December 2022.

Save as disclosed above, as at 31 December 2022, so far as is known to the Directors, none of the Directors or chief executive of the Company had any interests or short positions in the shares, underlying shares or debentures of the Company or any of its associated corporations (within the meaning of Part XV of the SFO) which were required to be notified to the Company and the Stock Exchange pursuant to Divisions 7 and 8 of Part XV of the SFO (including those taken or deemed as their interest and short position in accordance with such provisions of the SFO), or which were required, pursuant to section 352 of the SFO, to be entered in the register kept by the Company referred to therein, or which were required, pursuant to the Model Code, to be notified to the Company and the Stock Exchange.

SUBSTANTIAL SHAREHOLDERS' INTERESTS IN THE SHARE CAPITAL OF THE COMPANY

As at 31 December 2022, so far as known to the Company after reasonable enquiry, the following persons (other than the Directors or chief executive of the Company) had interests or short positions in the shares or underlying shares of the Company which would fall to be disclosed to the Company pursuant to Divisions 2 and 3 of Part XV of the SFO and has been entered in the register kept by the Company according to Section 336 of the SFO:

Name of Substantial Shareholders	Types of Shares	Capacity	Number of Shares/ underlying shares held *(shares)*	Approximate percentage of total share capital *(%)*
Sanyang Motor Company Limited	Ordinary Shares	Interest in controlled corporation	608,818,000 (L)	67.07%
SY International Ltd.[1]	Ordinary Shares	Beneficial owner	608,818,000 (L)	67.07%

(L) – Long position

Note:

1. SY International Ltd. is a direct wholly-owned subsidiary of Sanyang Motor Company Limited and therefore Sanyang Motor Company Limited is deemed to be interested in the shares of the Company held by SY International Ltd. under Part XV of the SFO.

Save as disclosed above, as at 31 December 2022, the Directors are not aware of any other person (other than Directors or chief executive of the Company) having an interest or short position in the Shares or underlying shares of the Company which would fall to be disclosed to the Company pursuant to Division 2 and 3 of Part XV of the SFO, or as recorded in the register required to be kept by the Company under section 336 of the SFO.

DIRECTORS' INTERESTS IN COMPETING BUSINESSES

During the year ended 31 December 2022 and up to the date of this report, none of the Directors has any interests in a business which competes or is likely to compete, either directly or indirectly, with the businesses of the Group.

PRINCIPAL RISKS AND UNCERTAINTIES FACING BY THE GROUP

The Group recognizes the importance of risk management practices. Thus, it endeavors its best to mitigate its exposure to operating and financial risks in an effective and efficient manner.

The principal risks and uncertainties facing by the Group include the risks pertaining to the motorbike industry in Vietnam. In recent years, the motorbike industry in Vietnam has been affected by unfavorable factors such as market situation changes and intensified competition among peers. The future competition of the industry is largely reflected in the all-round business competition.

The financial risk management objectives and policies of the Group can be found in note 22 to the consolidated financial statements.

CONTINUING CONNECTED TRANSACTIONS

The Group's related parties transactions for the year ended 31 December 2022 set out in note 24 to the consolidated financial statements constitute the continuing connected transactions as defined in chapter 14A of the Listing Rules and the Company has complied with the disclosure requirements in chapter 14A of the Listing Rules.

Details of the continuing connected transactions of the Group with Sanyang (an indirect substantial Shareholder of the Company) and the Sanyang Group are as follows:

Continuing connected transactions which are subject to the reporting, announcement requirements and independent Shareholders' approval requirements

	2022	2021
	US$	*US$*
Master Purchase Agreement [1]	**44,130,807**	36,739,991
Distributorship Agreement [2]	**3,615,488**	3,848,310
Research and Development Agreement [3]	**–**	54,000[4]

Notes:

1. On 3 December 2021, the Group and the Sanyang Group entered into the Master Purchase Agreement in relation to purchase of motorbike parts by the Group from members of the Sanyang Group. In accordance with the Master Purchase Agreement, the annual cap shall be US$62,560,000, US$73,020,000 and US$78,190,000 in 2022, 2023 and 2024 respectively. Details of the Master Purchase Agreement were set out in the circulars of the Company dated 9 February 2022 (the "2022 Circular").

2. On 3 December 2021, the Group and the Sanyang Group entered into the Distributorship Agreement in relation to the Group as the exclusive distributor of motorbikes and related parts manufactured by Sanyang Group in all of the member countries of the Association of South East Asian Nations (excluding Vietnam, unless the motorbikes are resold in Vietnam for exhibition purposes). In accordance with the Distributorship Agreement, the annual cap shall be US$5,530,000, US$5,410,000 and US$5,300,000 in 2022, 2023 and 2024 respectively. Details of the Distributorship Agreement were set out in the 2022 Circular of the Company.

3. On 3 December 2021, the Group and the Sanyang Group entered into the Research and Development Agreement in relation to provision of research and development and technical support services by Sanyang Group to the Group. In accordance with the Research and Development Agreement, the annual cap shall be US$1,900,000, US$700,000 and US$500,000 in 2022, 2023 and 2024 respectively. Details of the Research and Development Agreement were set out in the 2022 Circular of the Company.

4. For the year ended 31 December 2021, the Research and Development Agreement is the continuing connected transactions which are subject to the reporting and announcement requirements but exempt from independent Shareholders' approval requirement.

Continuing connected transactions which are subject to the reporting and announcement requirements but exempt from independent Shareholders' approval requirement

	2022 *US$*	2021 *US$*
Technology Licence Agreement [1]	**774,399**	681,197[4]
Parts Sales Agreement [2]	**237,595**	993,671
Production Machinery, Moulds and Equipment Purchase Agreement [3]	**25,907**	223,350

Notes:

1. On 26 November 2007, VMEP, a subsidiary of the Group and the Sanyang entered into the Technology Licence Agreement in relation to license of technology, know-how, trade secrets and production information by Sanyang to VMEP. In accordance with the Technology Licence Agreement, the annual cap shall be US$1,024,000, US$1,373,000 and US$650,000 in 2022, 2023 and 2024 respectively. Details of the Technology Licence Agreement were set out in the Company's announcements dated 3 December 2021.

2. On 3 December 2021, the Group and the Sanyang Group entered into the Parts Sales Agreement in relation to sale of motorbike parts by the Group to Sanyang Group. On 26 April 2019, the original annual caps were revised to the amounts of US$1,140,000, US$1,140,000 and US$1,140,000 in 2022, 2023 and 2024 respectively. Details of the Parts Sales Agreement were set out in the Company's announcements dated 3 December 2021.

3. On 3 December 2021, the Group and the Sanyang Group entered into the Production Machinery, Moulds and Equipment Purchase Agreement in relation to purchase of production machinery, moulds and equipment by the Group from Sanyang Group. In accordance with such purchase agreement, the annual cap shall be US$570,000, US$650,000 and US$300,000 in 2022, 2023 and 2024 respectively. Details of the Production Machinery, Moulds and Equipment Purchase Agreement were set out in the Company's announcement 3 December 2021.

4. For the year ended 31 December 2021, the Technology Licence Agreement was the continuing connected transactions which were subject to the reporting, announcement requirements and independent Shareholders' approval requirements.

The continuing connected transactions disclosed above complied with the reporting, announcement and annual review requirements and are exempt from the independent shareholders' approval requirements (as the case may be) under Chapter 14A of the Listing Rules.

For the year ended 31 December 2022, the actual transaction amount for each of the abovementioned continuing connected transactions has not exceeded the respective annual cap of the relevant transactions as approved by the Board or the independent Shareholders (as the case may be).

The independent non-executive Directors have reviewed the above continuing connected transactions in accordance with Rule 14A.55 of the Listing Rules, and confirmed that the transactions have been entered into:

(a) in the ordinary and usual course of business of the Group;

(b) on normal commercial terms or on terms no less favourable than terms available to or from independent third parties; and

(c) in accordance with the relevant agreements governing such transactions on terms that are fair and reasonable and in the interests of the Shareholders of the Company as a whole.

The Company's auditor was engaged to report on the Group's continuing connected transactions in accordance with Hong Kong Standard on Assurance Engagements 3000 (Revised) "Assurance Engagements Other than Audits or Reviews of Historical Financial Information" and with reference to Practice Note 740 "Auditor's Letter on Continuing Connected Transactions under the Hong Kong Listing Rules" issued by the Hong Kong Institute of Certified Public Accountants. The Company's auditor has issued their unqualified letter containing the auditor's findings and conclusions in respect of the continuing connected transactions disclosed by the Group on pages 27 to 28 of this annual report in accordance with Rule 14A.56 of the Listing Rules. A copy of the auditor's letter has been provided by the Company to the Stock Exchange.

Save as disclosed above, none of the related party transactions as disclosed in note 24 to the consolidated financial statements of the Group falls under the definition of connected transaction or constituted continuing connected transactions under the Listing Rules which are required to be disclosed in this annual report in accordance with Chapter 14A of the Listing Rules.

The Company confirms that its continuing connected transactions conducted during the year ended 31 December 2022 has complied with the disclosure requirements in accordance with Chapter 14A of the Listing Rules.

SUFFICIENCY OF PUBLIC FLOAT

Based on information that is publicly available to the Company and within knowledge of the Directors, the Company has maintained a sufficient public float as required under the Listing Rules as at the date of this report.

INDEMNITY OF DIRECTORS

A permitted indemnity provision (as defined in section 469 of the Hong Kong Companies Ordinance) for the benefit of the Directors is currently in force and was in force throughout the year ended 31 December 2022.

EQUITY-LINKED AGREEMENT

No equity-linked agreement was entered into by the Group, or existed during the year ended 31 December 2022.

MANAGEMENT CONTRACTS

No contracts concerning the management and administration of the whole or any substantial part of the business of the Group were entered into or existed during the Year.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE

The Group is committed to contributing to the sustainability of the environment and maintaining a high standard of corporate social governance essential for creating a framework for motivating staff, and contributes to the community in which we conduct our businesses and creating a sustainable return to the Group. Information on the environmental and social responsibility of the Group is set out in the "Environmental, Social and Governance Report" on pages 30 to 51 of this annual report.

AUDITOR

KPMG will retire and, being eligible, offer themselves re-appointment at the forthcoming annual general meeting. A resolution for re-appointment of KPMG as auditor of the Company will be proposed at the forthcoming annual general meeting. No change in auditor of the Company within the last three years.

By order of the Board
Vietnam Manufacturing and Export Processing (Holdings) Limited
Liu Wu Hsiung
Chairman

Hong Kong, 14 March 2023

1 ABOUT THIS REPORT

Vietnam Manufacturing and Export Processing (Holdings) Limited (the "Company") and its subsidiaries (the "Group" or "We") presents its Environmental, Social and Governance ("ESG") report which summarized our management policies, commitments, management approaches, compliance with laws and regulations, and annual highlights and measures regarding sustainable development during the period from 1 January 2022 to 31 December 2022 (the "Reporting Period" or the "Year"). For details on the corporate governance of the Group, please refer to the "Corporate Governance Report" section in the annual report or visit the official website of the Group.

Reporting Principles

This ESG Report has been prepared in accordance with the Environmental, Social and Governance Reporting Guide (the "Guide") set out in Appendix 27 to the Rules Governing the Listing of Securities (the "Listing Rules") on The Stock Exchange of Hong Kong Limited (the "Stock Exchange") and has complied with the "comply or explain" provisions in the Guide. A content index for the Guide based on the content of this report is set out in the last section of this ESG report for easy reference.

This ESG report also complies with the reporting principles of "materiality", "quantitative", "balance" and "consistency". The reporting principles were applied as follows:

Materiality: We have conducted a materiality assessment this Year and engaged internal and external stakeholders to rate ESG issues through an online questionnaire to identify ESG issues that are important to both the Group's operation and our stakeholders. This ESG report is prepared based on the result of the materiality assessment, and the material ESG issues identified have been disclosed in the ESG report.

Quantitative: This ESG report discloses the basis, methodology and sources of conversion factors used in calculating quantitative key performance indicators ("KPIs").

Consistency: Changes to statistical methods or KPIs are discussed in the ESG report for meaningful comparisons.

Balance: The ESG report provides an unbiased picture of the Group's performance during the Reporting Period.

Reporting Scope

This ESG report covers the Group's main operating bases in Vietnam and the reporting scope of our environmental KPIs mainly includes the following two plants in Vietnam:

- Production plants in Nhon Trach Industrial Zone II of Dong Nai Province, Vietnam
- A production plant in Ha Tay Province, Vietnam

We selected and determined the above reporting scope base on revenue and major operating locations. Since our other subsidiaries only accounted for a small portion of the Group's revenue, their ESG information and data performance are not disclosed in this ESG report. We are committed to expanding the reporting scope of environmental KPIs in the future to present a more comprehensive picture of our qualitative and quantitative ESG performance.

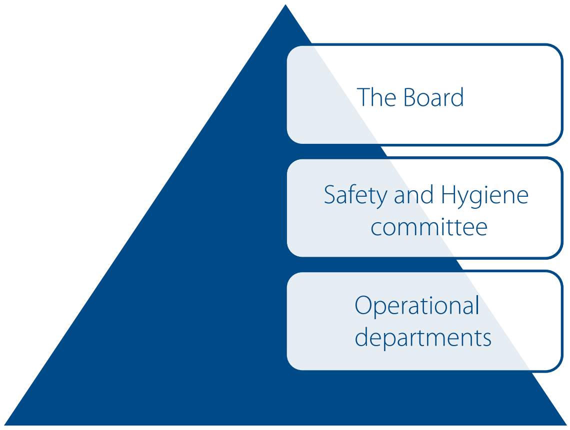
2 ESG Management

2.1 The Board's Statement

The Group has established an ESG governance framework to strengthen our ESG management. The Board is responsible for spearheading and overseeing our ESG efforts and in charge of leading us to address the opportunities and risks of sustainability. We had established the Safety and Hygiene committee to monitor ESG matters. The Board regularly determines and monitors ESG approaches and strategies. Its duties include approving and confirming ESG-related target setting, reviewing progress towards our goal, evaluating and prioritizing. We had established directional environment-related goals. In the future, we will conduct progress review based on the Group's ESG-related goals to monitor and refine our sustainability efforts.

2.2 ESG Governance Structure

Our Safety and Hygiene committee is responsible for reviewing environmental and labor safety policies and their performances, through which it assists the Board to monitor the Group's ESG matters and ensure a better implementation of our ESG policies. The Board is fully responsible for the Group's ESG reporting and management approach.



Our Safety and Hygiene committee is chaired by the general manager with the manager of the Administration Department and the representative(s) from the Environment and Safety Division under the General Affairs Department been delegated with the responsibility for overall coordination. Their specific responsibilities are as follows:

- Regularly report the Group's ESG performance to the Board;
- Draft ESG strategies and policies for the Group, which set out the identification of ESG materiality issues and ESG risks, and the formulation of corresponding measures;
- Assess and determine ESG risks and opportunities; and
- Review and recommend the annual ESG report to the Board for approval.

2.3 Stakeholders Engagement

We are committed to building and maintaining good relationships with our stakeholders, and by collecting their opinions, we aim to improve the Group's operations. The table below summarizes our communications with key stakeholders during the Reporting Period:

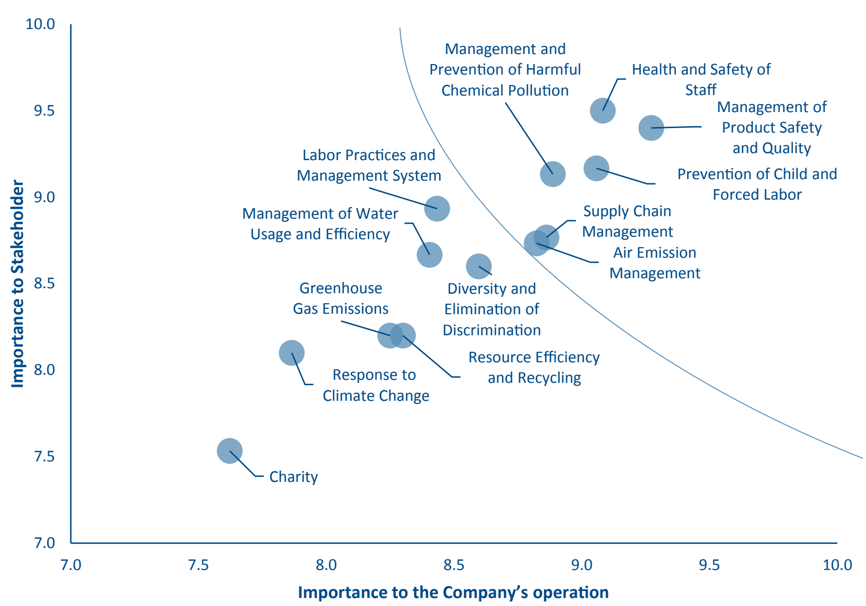
Key Stakeholders	Key Engagement Channels
Customers	• Customer service center • Online service platform • Phone, email
Shareholders/Investors	• AGM and other general meetings • Interim and annual reports • Corporate communications such as shareholder letters/ circulars and notices of meetings • Results announcements • Company website • Shareholder consultation
Staff	• Performance evaluation • Meetings and interviews • Business briefings • Volunteer services • Staff communication conferences
Business Partners	• Reports • Reports • On-site visits
Regulatory Authority	• Compliance with law • Compliance information disclosure • Reduce emissions
Community/NGO	• Community services
Suppliers	• Supplier management program • Meetings • Supplier/Contractor evaluation system • On-site inspections
Dealers	• Dealer management program • On-site inspections

2.4 Materiality Assessment

As there was no material change in the Company's business and operating environment during the year and the result of materiality assessment last year were still able to respond to the stakeholders' expectations without any major change in the importance ranking of the assessment, the assessment result and the materiality matrix of 2022 are still applicable to this year. The objective of our materiality assessment is to identify ESG issues that have a significant impact on our business and stakeholders for our formulation of ESG management approaches and strategies to achieve effective management. Our Board is involved in assessing, prioritizing and identifying material ESG-related issues in materiality assessments. The steps taken in our materiality assessment were as follows:

1. Identify the Group's ESG Issues	• Summarize applicable ESG issues for the Group based on the Guide, Sustainability Accounting Standards Board (SASB) Materiality Pool, Global Reporting Initiative (GRI) and peer benchmarking
2. Prioritizing	• Compile and analyze the questionnaire results, and adjust the materiality matrix according to the risk identification results
3. Results of Materiality Assessment	• Present the findings with a materiality matrix • Confirm the findings of the assessment by the Board of the Group • Readers can refer to the 2021 ESG Report

Materiality Assessment Matrix



2.5 Identifying Climate-related Risks

In addition to risks associated with the consumer market and the economy, the Group was also confronted with certain climate-related risks. First, we face physical and transitional risks from climate change. Our supply chains may be disrupted and our equipment may be damaged by extreme weather. Secondly, Vietnam is tightening up its air pollution emission standards for vehicles and motorbikes. Vietnam is also making its labor-related laws and regulations governing salary, labor conditions and so forth stricter, couple with a rise in the statutory minimum wage year by year. Such changes in the above mentioned decrees and norms may directly cause an increase in our production and technology costs.

On the other hand, in light of issues such as traffic congestion and air pollution, Ho Chi Minh City and some other first-tier cities may impose restrictions on the number of vehicles in future, dealing a blow to the consumer market of the motorbike industry. Along with the heightened consciousness of labor rights in recent years, labor strikes nowadays have also been affecting the day-to-day operations in some industries.

Confronted with such market and regulatory risks, the Group, on the one hand, keeps itself abreast of changes in laws and regulations, learns from the experience and the technology of Sanyang Motor Co., Ltd., ("Sanyang") the Company's ultimate holding company, and adapts itself to the tightening standards and norms of environmental protection and labor affairs. Moreover, the Group upholds the principle of "creating a harmonic, comfortable and safe workplace" to provide salaries and benefits surpassing legally required and bring to the staff a stable work and life, such that the labor relations are in harmony so far.

As to restrictions on the urban consumer market, the Group would address such external challenges by persisting in strategies in relation to enhancement of operational achievement, stringent control over costs and expenses, continued innovation of research and development ("R&D") technologies and expansion into overseas markets. What is more, it would make more efforts in expanding rural and overseas markets and in adapting to the consumer trend in respect of environmental protection by continued R&D and launch of environmental protection vehicles and electric cars to enrich offerings to consumers.

During the Year, the Group identified the following climate-related risks:

Physical risks	Impact on the Group	Countermeasures
Extreme weather	➢ Maintenance costs may increase due to damages caused by extreme weather events such as typhoons, floods and storms ➢ Employee safety issues caused by extreme weather	Provide safety training to employees to increase their safety awareness and develop contingency plans
Transitional risk	**Impact on the Group**	**Countermeasures**
Policy risk	➢ Increasing applicable regulations related to safety and air emissions in the industry lead to increased compliance costs	Our motorbikes comply with the Euro III emission standard. Plans are put forward to address corresponding regulations of different countries

3 PRODUCT RESPONSIBILITY

3.1 Product Quality Control

The Group attaches great importance to product quality that it has established a set of standardized quality control procedures in accordance with requirements of the ISO9001 Quality Management System, under which all processes ranging from feeding to production and processes after completion and before delivery are implemented with quality control, accomplishing our highest guiding principle of "focusing on underlying businesses while securing quality first and customers' satisfaction".

The Group sets its quality targets every year in accordance with its corporate policies and quality management requirements with concrete measures to trace their conformity with standards. The assessment indicators include defective loss, defective rate, costs incurred during the warranty period of complete bikes and so on. Besides, the Group strictly requires all production units to put into effect the following measures and to incorporate quality-related achievement performance into the assessment as the basis for salary adjustment and bonus distribution.

- To intensify continuously quality management, educational training and practical operation
- To ascertain truthful operation of the quality management system in the course of production, adhering to the "three not's principle" of "not accepting, not producing and not discharging defective goods"
- To materialize concretely monitoring and management of quality-related indicators

The General Manager's Office is delegated by the Group to assemble the R&D, the production, the services, the quality management and other relevant units to address significant quality issues that have occurred or may occur on the market by convening weekly meetings to review, draw up addressing or improving programs and ensure that the product quality issue is well taken care of and conformed to relevant national laws and regulations.

The Group has the "Recalling and Correcting Defective Goods Methods" in place as the corporate policies for units concerned to abide by in case of handling quality issues. For the year ended 31 December 2022, the Group has complied with all relevant laws and regulations and reported no significant non-compliance matter related to quality and product recall issues.

3.2 Management of Suppliers

The Group had about 100 suppliers whom were mainly from Vietnam and supplied us with die-casting, electrical components (such as lamps), steel parts, plastic parts and other services. The ESG risks of marked suppliers mainly include manufacturers involving an electroplating process that may have potential impact on the environment.

To ensure the quality of major components and assemblies and raw materials, the Group adopts the principle of global procurement to identify suppliers providing products with the finest quality, at the most competitive price and conforming to local decrees and norms and those of Vietnam government and other consumer markets. To make contribution to local economy, we materialize local procurement whenever possible as long as components and assemblies can be produced locally in Vietnam.

The Group conducts regular assessments on goods delivered by suppliers monthly. It also conducts regular on-site audits in respect of quality, technology, labor safety and hygiene and environmental protection to ensure that the product quality of suppliers conforms to the Company's requirements and complies with local environmental protection and labor-related norms. Those having grave breaches or failing to live up to standards are declined for further cooperation. For new suppliers, the Group has stringent assessment and examination operational procedures in place and only those passing such procedures can become part of the Group's collaborative manufacturer system.

To maintain our relationship with suppliers and to facilitate a harmonic development of the industrial chain, the Group has convened one meeting of collaborative manufacturers during the Year, thereby building an emotional tie with them through the meal gathering and sports activities there and helping the Group understand problems the suppliers may have and arrive at settlement resolutions hand in hand.

3.3 Maintaining Customer Relationship

Dealers

The Group must rely on local Vietnamese and overseas dealers to market its products and therefore it pays much attention to customers' opinions and feedbacks such that there are responsible unit officers in charge of product development and design, product delivery and maintenance services and other aspects to effect customer visits and routine communications in accordance with our "Benchmarks for Customer Services and Customer Satisfaction Management and Operation" to comprehend customers' needs and their expectations on products.

The Group executes regular surveys on customer satisfaction annually and compiles the "Analysis Report based on Findings of the Survey on Customer Satisfaction", and in respect of which a review meeting would be held for reporting the survey findings to high-ranking superiors and requesting relevant units to submit improvement programs in response to items that customers are not satisfied with. In addition, the Group keeps prompt response to customers' opinions and feedbacks with an aim to maintain a long-term and healthy cooperation relationship.

To ensure that our dealers provide quality sales and after-sales services, the Group has formulated the "Operational Benchmarks for Handling the Request Form for use by Dealer" and the "Operational Benchmarks for Warranties" to augment the quality requirements proposed by dealers during the manufacturing process and the warranty services provided after delivery.

Besides, the Group would conduct regular assessments on dealers quarterly and the results of which are used as the basis for dealer improvement and for counseling or subsidy provided by the Company.

Market and Consumers

The Group cares about consumers using products of SYM and other subsidiary brands, such surveys on user satisfaction are conducted as a new product makes its debut and product surveys of larger scale in respect of the market of Vietnam would also be conducted regularly, to find out the user experiences and the preferences that end-consumers may have on the Company's products. Their opinions are collected for directing future product planning and for serving or satisfying needs of social trends.

To provide Vietnamese consumers with a more environmental friendly choice, apart from motorbikes using gasoline, the Group is devoted to the R&D of a variety of electric motorbikes featuring characteristics like compact appearance and convenient use.

Information Security

The Group attaches great importance to information privacy, thus we monitor our projects by formulating and implementing our security inspection policies, which include network service authorization, e-mail security management, and computer virus prevention management. To strengthen information security management of the Group and prevent information security breaches, we formulated and regulated certain behaviors such as setting passwords and authorization for computer system users, backing up and storing data files.

3.4 Products and services responsibility

For the year ended 31 December 2022, the Group was not aware of any incidents of non-compliance with regulations and voluntary codes concerning the provision and use of the Group's products and services, including but not limited to, product and service information and labelling, marketing communications including advertising, promotion and sponsorship, and property rights including intellectual property rights that have a significant impact on the Group.

3.5 Anti-corruption

Anti-corruption Policies

The Group attaches importance to staff discipline that corruption, extortion, blackmail, misappropriation of public funds and money laundering behaviors in any form are sternly banned. The Group has framed the exacting "Occupational Ethic Norms", stipulated clearly in the Staff Manual and the Corporate Norms relevant standards in relation to fighting corruption, bribery and money laundering and required all the staff to cogently abide by the same to ensure no conflict of interests, such that all staffs, themselves or their respective relatives or friends are banned from demanding or receiving, whether directly or indirectly, any private rewards, gifts, monies, borrowings/ loans, services, presents and so forth from manufacturers having business dealings or contemplating to engage in dealings with the Company. In case of breaches of the aforesaid occupational ethic norms of the Group, the staffs or the manufacturers concerned may report to the Company's audit and personnel units by means of any channel, such as e-mail, correspondence or mobile applications.

To materialize strengthening work disciplines for staffs, give play to team spirit, elevate work efficiency and operational effectiveness, the Group makes staff discipline a key item in the educational training for new recruits and all the staff are required to receive training courses on rule of law, industrial safety and information safety. New norms, once issued by competent authorities, are communicated through notices, propaganda seminars and educational trainings and in other manners to the staff, allowing them to learn about relevant stipulations they should observe. For the year ended 31 December 2022, the Group has complied with all relevant laws and regulations and reported no significant malpractice or bribery or dereliction of duty in breach of relevant decrees and norms.

Internal Audit

The Group has established a comprehensive internal audit system incorporating five major aspects of environment control, risk assessment, operation control, information communication and supervision, which is used as the important internal control measure to prevent corruption, malpractice and other unlawful acts. There is also an internal audit unit instituted under the Board and the Board has full power to be responsible for effectiveness of the internal supervision and control system.

For the year ended 31 December 2022, the Group's audit unit has carried out routine audits in respect of nine aspects, namely procurement and payment, production, research and development, salary and wage, fixed assets, sales and receipts, financing, investment and e-information processing. It has also engaged in audits in respect of four key business projects and spotted no significant non-compliance or corruption related matter.

4 CARING FOR THE STAFF

The Group values its employees and cherishes their dedication and efforts to the Group. We strictly abided by employment-related laws and regulations such as the Vietnam Labor Law and the Social Insurance Law. For the year ended 31 December 2022, the Group reported no significant non-compliance matter related to employment.

The Group's staff consists mainly of Taiwanese and Vietnamese staffs. A summary of the Group's headcount is set out below:

Indicator	Unit	2022
Total employees	Person	1,155
The number of employees by gender		
Female	Person	236
Male	Person	919
The number of employees by employment category		
Full-time junior employee	Person	880
Full-time middle management	Person	215
Full-time senior management	Person	60
The number of employees by age group		
Below 30	Person	300
30-50	Person	695
Above 50	Person	160
The number of employees by region		
Employees in Vietnam	Person	1,136
Employees in Taiwan	Person	19

4.1 Remuneration and Benefits

Employment and Pay

The Group's staff consists mainly of Taiwanese and Vietnamese staffs. The Group establishes its human resource management system based on the value concept that respects diversity and declines discrimination, and acts on the highest guiding principle that turns a blind eye to nationalities (whether Taiwanese or Vietnamese), advocates equality between the sexes, recognizes contribution, cultivates talents and cherishes unity.

The Group draws up its "Management Methods for Recruitment and Appointment" based on labor-related decrees, which stipulate clearly the principle for staff recruitment and appointment, labor rights and obligations, wages and benefits and other contents. The hiring of Vietnamese and foreign staffs by the Group is proceeded strictly pursuant to local decrees and norms. Furthermore, the Group views its employees as significant human resources and capital, except in the case of severe breach of conduct, the Group does not execute instant termination of employment contract with employees. In the case of justifiable dismissal, the terminated employee is entitle to compensation according to local labor laws. For the year ended 31 December 2022, the Group reported no significant non-compliance matter related to employment.

The Group remunerates its staffs according to their respective academic qualifications and background, professional knowledge and skills, professional seniority and experience and individual performance. The salary of a staff does not vary with his/her gender, ethnicity, religion, political stance, marriage conditions, labor union or association. In order to ensure a stable supply of manpower, lower staff turnover costs and risks and provide the staff with a better life, the Group hires its staffs at a benchmark salary approximately 18% higher than the statutory minimum wage set by the government. Apart from basic salary, the Group offers year-end bonus, Labor Day and National Day bonuses and other variable remuneration to timely motivate staffs to attain better results.

Benefit Items

The Group's benefit system targets at formal staffs to provide the staff with a superior working environment in which they can work with delights. Benefit affairs are transacted by the Staff Benefits Committee (hereinafter be abbreviated as the "SBC") jointly formed by the labor and the management. The Group and the SBC would also provide allowances and subsidies of varied amount with regard to different occasions such as weddings, funerals, festive events, further studies, hospitalization, occupational injuries and so on.

The Group provides labor insurance, maternity/parental leave, pension reserve and so forth according to law; takes out group accident and staff health check insurance for the staff at the expense of the Group; and transacts staff solidarity fund insurance, overseas business trip or travel accident insurance, staff body check, etc. On the other hand, the SBC sponsors cultural and recreational, community and sports activities for the staff; offers staff language (English, Chinese and Vietnamese) learning allowances, education subsidies for children of staffs, subsidies for birthdays, benefit marks coupons for the three festivals and the Labor Day and travelling and other kinds of subsidy.

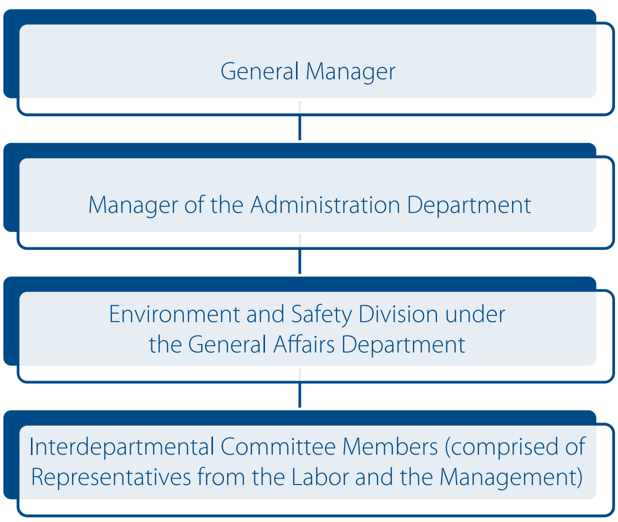
4.2 Occupational Health and Safety

The Group's prime consideration of occupational health and safety pivots on the potential safety and health injuries that our frontline staffs may suffer in their daily work.

With regard to management of occupational safety and hygiene, the 5S Management System comprising SEIRI, SEITON, SEISO, SEIKETSU and SAFETY is implemented in full to upgrade product quality, promote work-related safety and hygiene, ensuring physical and mental health of the staff to reduce occurrence of occupational diseases and disasters.

The Group has a Safety and Hygiene committee in place to review environment and labor safety policies and their achievement performance, and to promote continued improvement of the same. The safety and hygiene committee has the general manager acted as its chairman with the manager of the Administration Department and the representative(s) from the Environment and Safety Division under the General Affairs Department been delegated with the responsibility for overall planning and coordination, execution and tracing of relevant policies and resolutions. Committee members are comprised of representatives from the labor and the management to ensure a smooth communication between the two parties and serve the purpose of accomplishing the objectives of preventing occupational disasters and safeguarding labor safety and health.

The Structure of the Safety and Hygiene Committee is below.



Apart from this, the Group has instituted a labor protection organization to conduct regular checks on the execution of labor protection work at all branch plants every six months or annually in respect of different work safety themes designated by the Environment and Safety Division under the General Affairs Department, during which staffs are reminded to wear protective gear as required. Once potentially significant safety damages are detected, the organization would request the unit head concerned to effect measures aimed at eliminating such causes of damages.

Basic occupational health and safety measures provided by the Group to the staff mainly include:

- Annual inspection on the operational environment covering items like noises, poisonous wasted gases, dusts, VOCs, and etc.; and based on the findings of which to conduct body checks for staffs serving at those workplaces proved to be particularly damaging and materialize management by grading

- Annual body checks for general staffs to comprehend their health conditions and materialize management by grading with post re-designation as the case may be; and conduct checks on occupational disease for staffs serving at special posts. Based on the findings of the checks in 2022, no staff was found suffering from occupational disease

- Annual educational training on environmental safety and hygiene to promote awareness of environmental safety and hygiene among staffs

- Deployment of one healthcare staff at each plant zone, equipped with medicine and first-aid related equipment.

On the propaganda front, the Group has formulated the "Codes of Work on Safety and Hygiene for the Staff" pursuant to the Rules Governing Educational Training on Labor Safety and Hygiene and standardized safety and environmental protection certifications, trainings and on-the-job educational trainings required for all types of jobs. The survey on needy trainings conducted at the end of every year would be used as a basis for courses and trainings to be held in the coming year, in which the importance of environment, safety and hygiene is propagandized through relevant educational trainings.

There were no work-related fatalities recorded by the Group in 2020, 2021 and 2022.

4.3 Training and Development

The Group maintains a complete staff training system to serve our highest guiding principle of enhancing staffs knowledge, skills and quality, and upgrading their individual and organizational work quality and performance.

Training-related KPIs performances for the Year were summarized as below:

Indicator	Unit	2022
The percentage of employees trained by gender		
Female	%	21.30
Male	%	78.70
The percentage of employees trained by employment category		
Full-time junior employee	%	52.05
The average training hours completed per employee by gender		
Female	Hour	6
Male	Hour	6
The average training hours completed per employee by employment category		
The average training hours completed per full-time junior employee	Hour	6

The Group has a training center housing various plants for practical training, equipment and lecturers. The training center holds courses based on the Company's training regime and files the particulars and the number of training hours of participants with the educational training system, with the information reserved as reference for future promotion. Every year, the training center would arrange its annual training plans according to the Company's operational guiding principle and strategic objectives and by finding out training needs of all units. Apart from holding trainings on its own, the center transacts the business of entrusted training for other enterprises to provide diversified training courses and sound on-the-job education, aiming at cultivating talents rich in professional competence and eager to take challenges.

The Group's training system incorporates training courses in the following types:

- General training: trainings on environmental protection, fire-control, and trainings for new recruits (basic legal knowledge, work safety obligations, staff rights, etc.), and courses relating to safety and hygiene management and so on

- Quality management training: quality controller training, ISO training, basic concepts of quality management and so on

- Management training: include project management, project reporting and briefing techniques, the Five GEN Principle, the seven major approaches to quality management, an introduction to corporate management, issue analysis and decision-making and so on

- Language training: Chinese, Vietnamese training

In 2022, the Group organized a variety of training courses, which, apart from basic fire-control, industrial safety at plants, labor safety and hygiene, ISO Quality Management and environmental protection system related courses, included also CIC Training, trainings on operating forklift trucks and equipment safety and so on. The Group also encourages staffs to apply for skill verifications and obtain certifications.

Besides, to materialize the perpetual operational objective of "cultivating talents", enhance staffs' managerial abilities, and to study the management techniques and corporate culture of the Company's ultimate controlling company, the Group offered some Vietnamese cadres an opportunity to practice at Sanyang, Taiwan, and the contents of which included corporate strategic planning concepts, costing concepts, department operational management, departmental budget control and management and other courses.

The Group organizes achievement assessment and annual promotion for the staff in the fourth quarter every year, through which all units would appraise work achievements of their respective staffs, recognize their contributions and ascertain adequate development opportunities for staffs.

5 Environmental Awareness

The Group complies with requirements of the ISO14001 Environment Management System to establish a complete environment management system and pass its certification, so as to ascertain supervision and measurement over its daily operation, execute internal audit and propose correction and precaution measures for continued improvement. During the Year, the Group had set environmental targets and is committed to maintaining or gradually reducing energy consumption, water consumption, waste generation and greenhouse gas emissions as compared to the level of 2019.

5.1 Air Pollutants

Volatile Organic Compound (VOC) wasted gases generated in the process of plastics coating are the gravest and the most potentially hazardous air pollutants during the daily operation of the Group. The wasted gases from the coating process if not completely gathered and treated, may cause pollution to the Group internally or to the surrounding environment, or even spread further to causing pollution to the whole district while endangering the health of our front-line staffs and that of residents in the vicinity.

To prevent the wasted gases from the coating process from leaking outside, the Group has installed air filters for the operational environment of every plant zones with the wasted gases absorbed by water curtains and the paint residues properly retrieved and handed over to qualified contractors for treatment. The Group aggregates monthly usage as reported by each coating using unit, compile statistics for VOC content of the same and report quarterly to the Environmental Protection Bureau according to law for payment of the prevention fee for air pollution. Such payment information is filed with the Materials Department as reference for procurement of coatings, in the hope of choosing more environmental friendly and safer materials in a cost saving manner to reduce emission of wasted gases.

Besides, the Group has instituted contingency measures for the handling of notification of poor air quality, under which all implementation units must halt their outdoor operations upon receipt of such notification as stipulated. The Group would equally require the construction units to report their air pollution fee as stipulated and set up necessary air pollution precaution measures such as signing, fencing, capping, water spraying, and so on.

To effectively bring emission of wasted gases under control, the Group has drawn up an annual inspection plan, under which regular inspections are conducted quarterly on items like Toluen, a wasted gas from the coating process, ashes (or smoke concentration), etc., and an assessment report is prepared according to findings of the inspections as a basis for improvement of quality of emission of wasted gases. The inspection findings for 2022 all conformed to national standards and relevant laws and regulations. For the year ended 31 December 2022, the Group reported no significant non-compliance matter related to air pollution.

We collected the environmental KPIs of our production plants in Nhon Trach Industrial Zone II of Dong Nai Province, Vietnam and a production plant in Ha Tay Province, Vietnam to conduct an annual greenhouse gas emission evaluation. Our greenhouse gas emissions were summarized as below:

Greenhouse gas emission performances[1]	Unit	2022
Greenhouse gas emissions		
Total greenhouse gas emissions（Scope I and Scope II）	Tonne carbon dioxide equivalent	12,174.36
Greenhouse gas emissions intensity		
Total greenhouse gas emissions per unit production volume（Scope I and Scope II ）	Tonne carbon dioxide equivalent/ Production volume	0.11

Scope I： Direct greenhouse gas emissions from sources owned and controlled by the Company.

Scope II： Indirect greenhouse gas emissions from electricity generation, heating and cooling, or steam purchased by the Company.

[1] ISO14064-1 Prepared with reference to the" Greenhouse Gas Protocol" published by World Resources Institute (WRI) and World Business Council on Sustainable Development (WBCSD), and ISO14064-1 established by the International Organization for Standardization

5.2 Wastes and Wasted water

Management of wastes

Hazardous wastes generated in the course of operation of the Group can be classified into several major categories, namely paint residues, sludge, wasted oils and wasted cloths. For the year ended 31 December 2022, the hazardous waste production generated by the Group increased from 129,139 kilogram in 2021 to 440,588 kilogram in 2022. The increase was mainly due to the resumption of normal production of the Group in 2022 with an increase in sales volume in its main sales regions including Vietnam and ASEAN countries as a result of the alleviation of the novel coronavirus pandemic (the "Pandemic"), which led to a higher production volume in 2022 compared to 2021 and a corresponding increase in the waste generated during the production process.

The Group's management of wastes is carried out in accordance with the principle of "reducing emissions while recycling the recyclable", and the dumping and storage of hazardous wastes are monitored by security guards or personnel from the Environment and Safety Division under the General Affairs Department. Meanwhile, the Group continues to promote the source separation of wastes to all departments so as to reduce emissions and thus pollution through the complete source separation.

The Group's production plants all have reported to competent authorities and obtained emission permits from their respective local Environmental Protection Office in the sense that all hazardous wastes conform to environmental protection and related laws and regulations and handed over to qualified contractor(s) for recycling treatment. Directed against reduction and management of paint residues, the Company would implement reinforced management of material requisition and quantitative painting standards, and ensure proper outsourced treatment of paint residues after allowing them to stay stationary for some time.

As for ordinary domestic refuse, the principle of recycling and separation for centralized treatment is applied equally to reduce wastage and elevate recycling rate. For the year ended 31 December 2022, the Group reported no significant non-compliance matter related to disposal of wastes.

Waste disposal data were as follows:

	Unit	2022
Hazardous waste	Kg	440,588
Hazardous waste per unit production volume	Kg/ Production volume	4.03
Non-hazardous waste	Kg	234,640
Non-hazardous waste per unit production volume	Kg/ Production volume	2.15

Management of Wasted Water

The Group's plant in Dong Nai Province is located at Lot 4, Road 5C, Nhon Trach Industrial Zone II, part of the drainage area of the Dong Nai River, the water source serving the population of Bien Hoa City, Nhon Trach district and Ho Chi Minh City; the Group's plant in Ha Tay Province is located at Le Trong Tan, La Khe, Ha Dong, Ha Noi, part of the drainage area of the Hanoi River, the water source serving the population of Ha Dong and the whole Hanoi City. Given that the wasted water emitted from the related plants is of significant concerns as to the health and the safety of residents there, industrial wasted water emitted from the Group's plants is subject to stringent regulation by respective governments that the sewage emitted must tally with national standards.

The Group's plants are all equipped with sound wasted water treatment systems. Wasted water generated in the course of manufacturing processes would be collected and treated centrally, and emitted only after processes like concentration blending, precipitating, bio-treatment, suspension filtering and debugging, in order to ensure compliance with national emission standards.

The Group sets targets for its sewage emission annually and maintains a 24-hour surveillance over the water quality of the wasted water emitted, which covers items like Biochemical Oxygen Demand (BOD), Chemical Oxygen Demand (COD), Suspended Solids (SS), etc. Local Environmental Protection Offices would conduct regular examinations on the water quality of the wasted water emitted. For the year ended 31 December 2022, the Group's wasted water emitted from its plant zones all conformed to national standards and relevant laws and regulations, and the Group reported no significant non-compliance matter related to emission of wasted water.

5.3 Energy Saving and Water Saving Measures

Primary energy and resources used in the course of production of the Group involve electricity, gasoline, diesel fuel, natural gas, tap water and underground water. For the year ended 31 December 2022, the electricity consumption decreased from 9,232,253 kWh in 2021 to 12,054,253 kWh in 2022. The increase was mainly due to the resumption of normal production of the Group as a result of the alleviation of the Pandemic, which led to a higher production volume in 2022 compared to 2021 and a corresponding increase in the electricity consumption for production.

The Group's Environment and Safety Division under the General Affairs Department is dedicated to planning, launching and overseeing various energy saving and water saving programs. The Group manages electricity used in production systems and electricity used by indirect units separately, proposes and implements improvement programs in connection with work characteristics. In the aspect of manufacturing process, targets are set for continued enhancement of efficiency energy and resource use and reduction of resource wastage; in the aspect of office administration, targets are set for improvement of energy saving directed against air-conditioning and lighting for public areas.

The Group makes efforts in reducing energy consumption through improving system design, adopting efficient equipment and cycling use and other measures. The personnel from the Environment and Safety Division under the General Affairs Department would conduct regular checks on pipelines or piping to detect ruptures or leakages (if any) of water and have them mended timely.

On the other hand, by verified accessing every month and every time-interval and compiling statistics incorporating usage of energy, water and all other forms of energy and resources, the Group is able to trace use conditions and spot anomalies and embark on improvement and conservation accordingly. Besides, the Group keeps on propagandizing to staffs the concept of getting resources and economizing to augment control over use of resources.

The energy consumption and use of resources data were as follows:

Category		Unit	2022
Gas consumption from fixed equipment	Diesel fuel	Liter	196,000
	Gasoline	Liter	69,393
	Natural gas	Kg	233,000
Gas consumption from motor vehicles	Diesel fuel	Liter	38,890
	Gasoline	Liter	75,033
Electricity consumption	Electricity	kWh	12,054,253
Water consumption	Tap water	m^3	139,394
Packaging Material	Packaging film	Kg	127,799
	Paper	Kg	522,637

6 COMMUNITY INVESTMENT

The Group upholds the community investment concept of "What are taken from the community is used for the community – be an enterprise needed by the Vietnamese society" and has been making efforts in giving back to local communities since its foundation. The Group has formed the "Compassion Society" in 2003 to organize and drive related activities since then. It also encourages collaborative manufacturers and the Group as a whole to join in practicing the saying of "hands up for public welfare, a passionate move; join hands for public welfare, a blissful and beautiful life" as an active feedback and contribution to the Vietnamese society, such that its charity work for years has set a firm footing in Vietnam and won profound affirmations and recognitions with the Vietnamese society and the government.

The Company introduces a community involvement structure in relation to corporate social responsibility and propels comprehensive community investment work in three major dimensions covering environmental protection, community involvement and education and culture, so as to deliver in full its social responsibility. The Group contributed approximately US$6,600 for social welfare activities in 2022.

Appendix I: Sustainability Data Summary

Environmental Indicators[2]	Unit	2022
Air pollution[3]		
SO_2	Mg/m^3	134.50
NO_x	Mg/m^3	59.50
VOC	G	1.98
Emissions[4]		
NO_x	Tonne	227.04
SO_x	Tonne	1.62
PM	Tonne	18.22
Greenhouse gas emissions		
Total greenhouse gas emissions (Scope I and Scope II)	Tonne carbon dioxide equivalent	12,174.36
Total greenhouse gas emissions per unit production volume (Scope I and Scope II)	Tonne carbon dioxide equivalent/ Production volume	0.11
Hazardous waste		
Hazardous waste output	Kg	234,640
Hazardous waste output per unit production volume	Kg/ Production volume	2.15

	B8.1	Focus areas of contribution (e.g. education, environmental concerns, labour needs, health, culture, sport).	Community Investment
	B8.2	Resources contributed to the focus area.	Community Investment

KPMG

Independent auditor's report to the shareholders of
Vietnam Manufacturing and Export Processing (Holdings) Limited
(incorporated in the Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of Vietnam Manufacturing and Export Processing (Holdings) Limited ("the Company") and its subsidiaries ("the Group") set out on pages 56 to 106, which comprise the consolidated statement of financial position as at 31 December 2022, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated cash flow statement for the year then ended and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2022 and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards ("IFRSs") issued by the International Accounting Standards Board ("IASB") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"). Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants ("the Code") together with any ethical requirements that are relevant to our audit of the consolidated financial statements in the Cayman Islands and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTER

Key audit matter is the matter that, in our professional judgement, was of most significance in our audit of the consolidated financial statements of the current period. This matter was addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

KEY AUDIT MATTER (Continued)

Valuation of motorbikes manufacturing inventories

Refer to note 13 to the consolidated financial statements and the accounting policies in note 2(j).

The Key Audit Matter

Inventories are carried at the lower of cost and net realisable value ("NRV") in the consolidated financial statements.

At 31 December 2022, the Group's motorbikes manufacturing inventories, which accounted for 89% (2021: 90%) of the total inventories and comprised principally of raw materials, with gross amount of US$26.0 million (2021:US$30.2 million), against which a write-down of US$3.0 million (2021: US$3.7 million) was recorded.

Management performs a regular review of the motorbikes manufacturing inventories held by the Group and assess if any write-down is required due to their deteriorating physical conditions, long ageing or the expectation that they would not be fully utilised based on expected future manufacturing or trading orders.

Where there are such motorbikes manufacturing inventories, a write-down may be required to reduce the carrying amount to NRV.

We identified the valuation of motorbikes manufacturing inventories as a key audit matter because significant degree of management judgement required to assess the appropriate level of write-down for motorbikes manufacturing inventories.

How the matter was addressed in our audit

Our audit procedures to assess the valuation of the motorbikes manufacturing inventories included the following:

- evaluating the Group's policy for provision for inventories with reference to the requirements of the prevailing accounting standards;

- assessing, on a sample basis, whether items in the inventory ageing report of motorbikes manufacturing inventories were classified within the appropriate ageing bracket by comparing individual items with goods receipt notes;

- assessing, on a sample basis, the reasonableness of NRV of motorbikes manufacturing inventories estimated by management for those long-aged and slow-moving motorbikes manufacturing inventories with reference to the movements, ageing analysis, forward customers' orders and the selling price subsequent to the year end;

- challenging management on the reasonableness of NRV of motorbikes manufacturing inventories for damaged inventories by comparing the management's assessment of the conditions of the damaged inventories with our observation during our attendance of the year-end inventory count on motorbikes manufacturing inventories on a sample basis;

- re-calculating the write-down for motorbikes manufacturing inventories based on the Group's write-down policy; and

- performing retrospective review, on a sample basis, by comparing the carrying values of finished goods of motorbikes manufacturing inventories as at 31 December 2021 with the sales prices achieved during the reporting period and raw materials and work-in-progress of motorbikes manufacturing inventories as at 31 December 2021 with subsequent utilisation record to assess the reliability of management's judgement and whether there is any indication of management bias.

INFORMATION OTHER THAN THE CONSOLIDATED FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The directors are responsible for the other information. The other information comprises all the information included in the annual report, other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF THE DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRSs issued by the IASB and the disclosure requirements of the Hong Kong Companies Ordinance and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The directors are assisted by the Audit Committee in discharging their responsibilities for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and, where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Yeung Yuk Fan.

Effect of foreign exchange rate changes		**(144,148)**	63,053
Cash and cash equivalents at 31 December	15	**10,518,849**	10,537,922

The notes on pages 60 to 106 form part of these financial statements.

1 REPORTING ENTITY

Vietnam Manufacturing and Export Processing (Holdings) Limited (the "Company") was incorporated in the Cayman Islands on 20 June 2005 as an exempted company with limited liability under the Companies Law, Chapter 22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands.

The Company and its subsidiaries (collectively, the "Group") are principally engaged in manufacture and sales of motorbikes, related spare parts and engines and provision of motorbike maintenance services.

The Company's shares have been listed on the Main Board of The Stock Exchange of Hong Kong Limited (the "Stock Exchange") since 20 December 2007.

2 SIGNIFICANT ACCOUNTING POLICIES

(a) Statement of compliance

These financial statements have been prepared in accordance with all applicable International Financial Reporting Standards ("IFRSs"), which collective term includes all applicable individual International Financial Reporting Standards, International Accounting Standards ("IASs") and Interpretations issued by the International Accounting Standards Board ("IASB"). These financial statements also comply with the disclosure requirements of the Hong Kong Companies Ordinance and the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited. Significant accounting policies adopted by the Group are disclosed below.

The IASB has issued certain amendments to IFRSs that are first effective or available for early adoption for the current accounting period of the Group. Note 2(c) provides information on any changes in accounting policies resulting from initial application of these developments to the extent that they are relevant to the Group for the current accounting period reflected in these financial statements.

(b) Basis of preparation of the financial statements

The consolidated financial statements for the year ended 31 December 2022 comprise the Company and its subsidiaries and the Group's interest in an associate.

The measurement basis used in the preparation of the financial statements is the historical cost basis.

Items included in the financial statements of each of the Group entities are measured using the currency of the primary economic environment in which the entity operates. The Group has adopted United States dollars ("US$") as its presentation currency as the directors of the Company consider that presentation of the consolidated financial statements in US$ will facilitate analysis of the Group's financial information.

The preparation of financial statements in conformity with IFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements made by management in the application of IFRSs that have significant effect on the financial statements and major sources of estimation uncertainty are discussed in note 3.

2 SIGNIFICANT ACCOUNTING POLICIES (Continued)

(c) Changes in accounting policies

The Group has applied the following amendments to IFRSs issued by the IASB to these financial statements for the current accounting period:

- Amendments to IAS 16, *Property, plant and equipment: Proceeds before intended use*
- Amendments to IAS 37, *Provisions, contingent liabilities and contingent assets: Onerous contracts — cost of fulfilling a contract*

None of these developments have had a material effect on how the Group's results and financial position for the current or prior periods have been prepared or presented. The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period.

(d) Subsidiaries and non-controlling interests

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. When assessing whether the Group has power, only substantive rights (held by the Group and other parties) are considered.

An investment in a subsidiary is consolidated into the consolidated financial statements from the date that control commences until the date that control ceases. Intra-group balances, transactions, cash flows and any unrealised profits arising from intra-group transactions are eliminated in full in preparing the consolidated financial statements. Unrealised losses resulting from intra-group transactions are eliminated in the same way as unrealised gains but only to the extent that there is no evidence of impairment.

Acquisition of a subsidiary that does not constitute a business is accounted for as acquisition of assets. In such cases, the Group recognises the individual identifiable assets acquired and liabilities assumed. The consideration of the acquisition is allocated to the identifiable assets and liabilities on their relative fair values basis.

Non-controlling interests represent the equity in a subsidiary not attributable directly or indirectly to the Company, and in respect of which the Group has not agreed any additional terms with the holders of those interests which would result in the Group as a whole having a contractual obligation in respect of those interests that meets the definition of a financial liability. For each business combination, the Group can elect to measure any non-controlling interests either at fair value or at the non-controlling interests' proportionate share of the subsidiary's net identifiable assets.

Non-controlling interests are presented in the consolidated statement of financial position within equity, separately from equity attributable to the equity shareholders of the Company. Non-controlling interests in the results of the Group are presented on the face of the consolidated statement of profit or loss and other comprehensive income as an allocation of the total profit or loss and total comprehensive income for the year between non-controlling interests and the equity shareholders of the Company.

Changes in the Group's interests in a subsidiary that do not result in a loss of control are accounted for as equity transactions, whereby adjustments are made to the amounts of controlling and non-controlling interests within consolidated equity to reflect the change in relative interests, but no adjustments are made to goodwill and no gain or loss is recognised.

When the Group loses control of a subsidiary, it is accounted for as a disposal of the entire interest in that subsidiary, with a resulting gain or loss being recognised in profit or loss. Any interest retained in that former subsidiary at the date when control is lost is recognised at fair value and this amount is regarded as the fair value on initial recognition of a financial asset or, when appropriate, the cost on initial recognition of an investment in an associate (see note 2(e)(i)).

In the Company's statement of financial position, an investment in a subsidiary is stated at cost less impairment losses (see note 2(i)(ii)).

2 SIGNIFICANT ACCOUNTING POLICIES (Continued)

(e) Associates and joint operations

(i) An associate is an entity in which the Group has significant influence, but not control or joint control, over its management, including participation in the financial and operating policy decisions.

An investment in an associate is accounted for in the consolidated financial statements under the equity method. Under the equity method, the investment is initially recorded at cost, adjusted for any excess of the Group's share of the acquisition-date fair values of the investee's identifiable net assets over the cost of the investment (if any). The cost of the investment includes purchase price, other costs directly attributable to the acquisition of the investment, and any direct investment into the associate that forms part of the Group's equity investment. Thereafter, the investment is adjusted for the post acquisition change in the Group's share of the investee's net assets and any impairment loss relating to the investment (see note 2(i)(ii)). At each reporting date, the Group assesses whether there is any objective evidence that the investment is impaired. Any acquisition-date excess over cost, the Group's share of the post-acquisition, post-tax results of the investees and any impairment losses for the year are recognised in profit or loss, whereas the Group's share of the post-acquisition, post-tax items of the investees' other comprehensive income are recognised in the consolidated statement of profit or loss and other comprehensive income.

When the Group's share of losses exceeds its interest in the associate, the Group's interest is reduced to nil and recognition of further losses is discontinued except to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the investee. For this purpose, the Group's interest is the carrying amount of the investment under the equity method, together with any other long-term interests that in substance form part of the Group's net investment in the associate (after applying the expected credit losses model to such other long-term interests where applicable (see note 2(i)(i)).

Unrealised profits and losses resulting from transactions between the Group and its associates are eliminated to the extent of the Group's interest in the investee, except where unrealised losses provide evidence of an impairment of the asset transferred, in which case they are recognised immediately in profit or loss.

In all other cases, when the Group ceases to have significant influence over an associate, it is accounted for as a disposal of the entire interest in that investee, with a resulting gain or loss being recognised in profit or loss. Any interest retained in that former investee at the date when significant influence is lost is recognised at fair value and this amount is regarded as the fair value on initial recognition of a financial asset.

(ii) A joint operation is a joint arrangement whereby the Group and other parties contractually agree to share control of the arrangement, and have rights to the assets, and obligations for the liabilities, relating to the arrangement. The Group recognises its interest in the joint operation by combining the assets, liabilities, revenues and expenses attributable to its interest with similar items on a line-by-line basis. Consistent accounting policies are applied for like transactions and events in similar circumstances.

(f) Investment properties

Investment properties are land and/or buildings which are owned or held under a leasehold interest (see note 2(h)) to earn rental income and/or for capital appreciation. These include land held for a currently undetermined future use and property that is being constructed or developed for future use as investment property.

Investment properties are stated at cost less accumulated depreciation and impairment losses (see note 2(i)(ii)).

Investment properties are depreciated on a straight-line basis over the shorter of the unexpired term of leases and their estimated useful lives. Both the useful life of investment properties and residual values, if any are reviewed annually.

Gains or losses arising from the retirement or disposal of an investment property is determined as the difference between the net disposal proceeds and the carrying amount of the investment property and is recognised in profit or loss on the date of retirement or disposal.

2 SIGNIFICANT ACCOUNTING POLICIES (Continued)

(g) Other property, plant and equipment

The following items of other property, plant and equipment are stated at cost less accumulated depreciation and impairment losses (see note 2(i)(ii)):

– right-of-use assets arising from leases over leasehold properties where the Group is not the registered of the property interest;

– buildings held for own use which are situated on leasehold land;

– right-of-use assets arising from prepaid land lease rentals and related cost; and

– other items of plant and equipment.

The cost of self-constructed items of other property, plant and equipment includes the cost of materials, direct labour, the initial estimate, where relevant, of the costs of dismantling and removing the items and restoring the site on which they are located, and an appropriate proportion of production overheads and borrowing costs (see note 2(t)). Once completion, the assets under construction are transferred to other categories within other property, plant and equipment. Assets under constructions are stated at historical cost less impairment losses.

Items may be produced while bringing an item of property, plant and equipment to the location and condition necessary for it to be capable of operating in the manner intended by management. The proceeds from selling any such items and the related costs are recognised in profit or loss.

Gains or losses arising from the retirement or disposal of an item of other property, plant and equipment are determined as the difference between the net disposal proceeds and the carrying amount of the item and are recognised in profit or loss on the date of retirement or disposal.

Depreciation is calculated to write off the cost of items of other property, plant and equipment, less their estimated residual value, if any, using the straight-line method over their estimated useful lives as follows:

–	Leasehold land	30 – 50 years
–	Buildings held for own use	20 – 30 years
–	Machinery, moulds and equipment	2 – 12 years
–	Office equipment, furniture and fittings	4 – 10 years
–	Electrical, water and utility systems	5 – 10 years
–	Motor vehicles	5 – 7 years

– The Group's interests in buildings situated on leasehold land are depreciated over the shorter of the unexpired term of lease and building's estimated useful life.

No depreciation is provided for assets under construction. Where parts of an item of other property, plant and equipment have different useful lives, the cost of the item is allocated on a reasonable basis between the parts and each part is depreciated separately. Both the useful life of an asset and its residual value, if any, are reviewed annually.

2 SIGNIFICANT ACCOUNTING POLICIES (Continued)

(h) Leased assets

At inception of a contract, the Group assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Control is conveyed where the customer has both the right to direct the use of the identified asset and to obtain substantially all of the economic benefits from that use.

As a lessee

At the lease commencement date, the Group recognises a right-of-use and a lease liability, except for short-term leaves that have a lease term of 12 months or less and leases of low-value assets. When the Group enters into a lease in respect of a low-value asset, the Group decides whether to capitalise the lease on a lease-by-lease basis. The lease payments associated with those leases which are not capitalised are recognised as an expense on a systematic basis over the lease term.

Where the lease is capitalised, the lease liability is initially recognised at the present value of the lease payments payable over the lease term, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, using a relevant incremental borrowing rate. After initial recognition, the lease liability is measured at amortised cost and interest expense is calculated using the effective interest method. Variable lease payments that do not depend on an index or rate are not included in the measurement of the lease liability and hence are charged to profit or loss in the accounting period in which they are incurred.

The right-of-use asset recognised when a lease is capitalised is initially measured at cost, which comprises the initial amount of the lease liability plus any lease payments made at or before the commencement date, and any initial direct costs incurred. Where applicable, the cost of the right-of-use assets also includes an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, discounted to their present value, less any lease incentives received. The right-of-use asset is subsequently stated at cost less accumulated depreciation and impairment losses (see notes 2(g) and 2(i)(ii)).

The lease liability is remeasured when there is a change in future lease payments arising from a change in an index or rate, or there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or there is a change arising from the reassessment of whether the Group will be reasonably certain to exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The lease liability is also remeasured when there is a change in the scope of a lease or the consideration for a lease that is not originally provided for in the lease contract ("lease modification") that is not accounted for as a separate lease. In this case the lease liability is remeasured based on the revised lease payments and lease term using a revised discount rate at the effective date of the modification.

In the consolidated statement of financial position, the current portion of long-term lease liabilities is determined as the present value of contractual payments that are due to be settled within twelve months after the reporting period.

2 SIGNIFICANT ACCOUNTING POLICIES (Continued)

(i) Credit losses and impairment of assets

(i) Credit losses from financial instruments

The Group recognises a loss allowance for expected credit losses ("ECLs") on financial assets measured at amortised cost (including cash and cash equivalents, trade and other receivables).

Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all expected cash shortfalls (i.e. the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive).

The expected cash shortfalls are discounted using the effective interest rate determined at initial recognition or an approximation thereof where the effect of discounting is material.

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

In measuring ECLs, the Group takes into account reasonable and supportable information that is available without undue cost or effort. This includes information about past events, current conditions and forecasts of future economic conditions.

ECLs are measured on either of the following bases:

– 12-month ECLs: these are losses that are expected to result from possible default events within the 12 months after the reporting date; and

– lifetime ECLs: these are losses that are expected to result from all possible default events over the expected lives of the items to which the ECL model applies.

Loss allowances for trade receivables are always measured at an amount equal to lifetime ECLs. ECLs on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors and an assessment of both the current and forecast general economic conditions at the reporting date.

For all other financial instruments, the Group recognises a loss allowance equal to 12-month ECLs unless there has been a significant increase in credit risk of the financial instrument since initial recognition, in which case the loss allowance is measured at an amount equal to lifetime ECLs.

2 SIGNIFICANT ACCOUNTING POLICIES (Continued)

(i) Credit losses and impairment of assets (Continued)

(i) Credit losses from financial instruments (Continued)

Significant increases in credit risk

In assessing whether the credit risk of a financial instrument has increased significantly since initial recognition, the Group compares the risk of default occurring on the financial instrument assessed at the reporting date with that assessed at the date of initial recognition. In making this reassessment, the Group considers that a default event occurs when (i) the borrower is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security (if any is held); or (ii) the financial assets are 60 to 90 days past due. The Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

– failure to make payments of principal or interest on their contractually due dates;

– an actual or expected significant deterioration in a financial instrument's external or internal credit rating (if available);

– an actual or expected significant deterioration in the operating results of the debtor; and

– existing or forecast changes in the technological, market, economic or legal environment that have a significant adverse effect on the debtor's ability to meet its obligation to the Group.

Depending on the nature of the financial instruments, the assessment of a significant increase in credit risk is performed on either an individual basis or a collective basis. When the assessment is performed on a collective basis, the financial instruments are grouped based on shared credit risk characteristics, such as past due status and credit risk ratings.

ECLs are remeasured at each reporting date to reflect changes in the financial instrument's credit risk since initial recognition. Any change in the ECL amount is recognised as an impairment gain or loss in profit or loss. The Group recognises an impairment gain or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account.

Basis of calculation of interest income

Interest income recognised in accordance with note 2(r)(iv) is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit-impaired, in which case interest income is calculated based on the amortised cost (i.e. the gross carrying amount less loss allowance) of the financial asset.

At each reporting date, the Group assesses whether a financial asset is credit-impaired. A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable events:

– significant financial difficulties of the debtor;

– a breach of contract, such as a default or past due event;

– it becoming probable that the borrower will enter into bankruptcy or other financial reorganisation;

– significant changes in the technological, market, economic or legal environment that have an adverse effect on the debtor; or

– the disappearance of an active market for a security because of financial difficulties of the issuer.

2 SIGNIFICANT ACCOUNTING POLICIES (Continued)

(i) Credit losses and impairment of assets (Continued)

(i) Credit losses from financial instruments (Continued)

Write-off policy

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the asset becomes 91 days past due or when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off.

Subsequent recoveries of an asset that was previously written off are recognised as a reversal of impairment in profit or loss in the period in which the recovery occurs.

(ii) Impairment of other non-current assets

Internal and external sources of information are reviewed at the end of each reporting period to identify indications that the following assets may be impaired or, except in the case of goodwill, an impairment loss previously recognised no longer exists or may have decreased:

– investment properties;

– other property, plant and equipment, including right-of-use assets; and

– investments in subsidiaries in the Company's statement of financial position.

If any such indication exists, the asset's recoverable amount is estimated.

– Calculation of recoverable amount

The recoverable amount of an asset is the greater of its fair value less costs of disposal and value-in-use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where an asset does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the smallest group of assets that generates cash inflows independently (i.e. a cash-generating unit). A portion of the carrying amount of a corporate asset (for example, head office building) is allocated to an individual cash-generating unit if the allocation can be done on a reasonable and consistent basis, or to the smallest group of cash-generating units if otherwise.

– Recognition of impairment losses

An impairment loss is recognised in profit or loss if the carrying amount of an asset, or the cash-generating unit to which it belongs, exceeds its recoverable amount. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the cash-generating unit (or group of units) and then, to reduce the carrying amount of the assets in the unit (or group of units) on a pro rata basis, except that the carrying value of an asset will not be reduced below its individual fair value less costs of disposal (if measurable), or value in use (if determinable).

– Reversals of impairment losses

In respect of assets other than goodwill, an impairment loss is reversed if there has been a favourable change in the estimates used to determining the recoverable amount.

A reversal of an impairment loss is limited to the asset's carrying amount that would have been determined had no impairment loss been recognised in prior years. Reversals of impairment losses are credited to profit or loss in the year in which the reversals are recognised.

(iii) Interim financial reporting and impairment

Under the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited, the Group is required to prepare an interim financial report in compliance with IAS 34, Interim financial reporting, in respect of the first six months of the financial year. At the end of the interim period, the Group applies the same impairment testing, recognition, and reversal criteria as it would at the end of the financial year (see notes 2(i)(i) and (ii)).

2 SIGNIFICANT ACCOUNTING POLICIES (Continued)

(j) Inventories

Inventories are assets which are held for sale in the ordinary course of business, in the process of production for such sale or in the form of materials or supplies to be consumed in the production process or in the rendering of services.

Inventories are carried at the lower of the cost and net realisable value.

– Motorbike manufacturing

Cost is calculated using the weighted average cost formula and comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

– Properties for sale

The cost of properties for sale comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. Net realisable value represents the estimated selling price less costs to be incurred in selling the property.

When inventories are sold, the carrying amount of those inventories is recognised as an expense in the period in which the related revenue is recognised. The amount of any write-down of inventories to net realisable value and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

(k) Trade and other receivables

A receivable is recognised when the Group has an unconditional right to receive consideration. A right to receive consideration is unconditional if only the passage of time is required before payment of that consideration is due.

Trade receivables that do not contain a significant financing component are initially measured at their transaction price. Trade receivables that contain a significant financing component and other receivables are initially measured at fair value plus transaction costs. All receivables are subsequently stated at amortised cost, using the effective interest method and including an allowance for credit losses (see note 2(i)(i)).

Insurance reimbursement is recognised and measured in accordance with note 2(q).

(l) Interest-bearing borrowings

Interest-bearing borrowings are recognised initially at fair value less transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost using the effective interest method. Interest expense is recognised in accordance with the Group's accounting policy for borrowing costs (see note 2(t)).

2 SIGNIFICANT ACCOUNTING POLICIES (Continued)

(m) Trade and other payables (other than refund liabilities) and contract liabilities

(i) Trade and other payables

Trade and other payables are initially recognised at fair value and subsequently stated at amortised cost unless the effect of discounting would be immaterial, in which case they are stated at invoice amounts.

Refund liabilities arising from rights of returns and volume rebates are recognised in accordance with the policy set out in note 2(r)(i).

(ii) Contract liabilities

A contract liability is recognised when the customer pays non-refundable consideration before the Group recognises the related revenue. A contract liability would also be recognised if the Group has an unconditional right to receive non-refundable consideration before the Group recognises the related revenue. In such cases, a corresponding receivables would also be recognised (see note 2(k)).

(n) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other financial institutions, and short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, having been within three months of maturity at acquisition. Cash and cash equivalents are assessed for ECL in accordance with the policy set out in note 2(i)(i).

(o) Employee benefits

(i) Short-term employee benefits and contributions to defined contribution retirement plans

Salaries, annual bonuses, paid annual leave, contributions to defined contribution retirement plans and the cost of non-monetary benefits are accrued in the year in which the associated services are rendered by employees. Where payment or settlement is deferred and the effect would be material, these amounts are stated at their present values.

(ii) Termination benefits

Termination benefits are recognised at the earlier of when the Group can no longer withdraw the offer of those benefits and when it recognises restructuring costs involving the payment of termination benefits.

(p) Income tax

Income tax for the year comprises current tax and movements in deferred tax assets and liabilities. Current tax and movements in deferred tax assets and liabilities are recognised in profit or loss except to the extent that they relate to items recognised in other comprehensive income or directly in equity, in which case the relevant amounts of tax are recognised in other comprehensive income or directly in equity, respectively.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at the end of the reporting period, and any adjustment to tax payable in respect of previous years.

Deferred tax assets and liabilities arise from deductible and taxable temporary differences respectively, being the differences between the carrying amounts of assets and liabilities for financial reporting purpose and their tax bases. Deferred tax assets also arise from unused tax losses and unused tax credits.

Apart from certain limited exceptions, all deferred tax liabilities, and all deferred tax assets to the extent that it is probable that future taxable profits will be available against which the asset can be utilised, are recognised. Future taxable profits that may support the recognition of deferred tax assets arising from deductible temporary differences include those that will arise from the reversal of existing taxable temporary differences, provided those differences relate to the same taxation authority and the same taxable entity, and are expected to reverse either in the same period as the expected reversal of the deductible temporary difference or in periods into which a tax loss arising from the deferred tax asset can be carried back or forward. The same criteria are adopted when determining whether existing taxable temporary differences support the recognition of deferred tax assets arising from unused tax losses and credits, that is, those differences are taken into account if they relate to the same taxation authority and the same taxable entity, and are expected to reverse in a period, or periods, in which the tax loss or credit can be utilised.

2 SIGNIFICANT ACCOUNTING POLICIES (Continued)

(p) Income tax (Continued)

The limited exceptions to recognition of deferred tax assets and liabilities are those temporary differences arising from the initial recognition of assets or liabilities that affect neither accounting nor taxable profit (provided they are not part of a business combination), and temporary differences relating to investments in subsidiaries to the extent that, in the case of taxable differences, the Group controls the timing of the reversal and it is probable that the differences will not reverse in the foreseeable future, or in the case of deductible differences, unless it is probable that they will reverse in the future.

The amount of deferred tax recognised is measured based on the expected manner of realisation or settlement of the carrying amount of the assets and liabilities, using tax rates enacted or substantively enacted at the end of the reporting period. Deferred tax assets and liabilities are not discounted.

The carrying amount of a deferred tax asset is reviewed at the end of each reporting period and is reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the related tax benefit to be utilised. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profits will be available.

Additional income taxes that arise from the distribution of dividends are recognised when the liability to pay the related dividends is recognised.

Current tax balances and deferred tax balances, and movements therein, are presented separately from each other and are not offset. Current tax assets are offset against current tax liabilities, and deferred tax assets against deferred tax liabilities, if the Company or the Group has the legally enforceable right to set off current tax assets against current tax liabilities and the following additional conditions are met:

– in the case of current tax assets and liabilities, the Company or the Group intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously; or

– in the case of deferred tax assets and liabilities, if they relate to income taxes levied by the same taxation authority on either:

  – the same taxable entity; or

  – different taxable entities, which, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered, intend to realise the current tax assets and settle the current tax liabilities on a net basis or realise and settle simultaneously.

(q) Provisions and contingent liabilities

Provisions are recognised when the Group has a legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditure expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, a separate asset is recognised for any expected reimbursement that would be virtually certain. The amount recognised for the reimbursement is limited to the carrying amount of the provision.

2 SIGNIFICANT ACCOUNTING POLICIES (Continued)

(r) Revenue and other income

Income is classified by the Group as revenue when it arises from the sale of goods, the provision of services or the use by others of the Group's assets under leases in the ordinary course of the Group's business.

Revenue is recognised when control over a product or service is transferred to the customer, or the lessee has the right to use the asset, at the amount of promised consideration to which the Group is expected to be entitled, excluding those amounts collected on behalf of third parties. Revenue excludes value added tax or other sales taxes and is after deduction of any trade discounts.

Further details of the Group's revenue and other income recognition policies are as follows:

(i) Sales of goods

Revenue is recognised when the control of goods was transferred. The transfer of the control of goods means that the goods had been delivered to the customer and the customer could solely decide the sales channel and price of the goods. There were no outstanding obligations that would affect the customer's acceptance of the goods. Delivery occurred at the place of delivery specified in the contract, the risk of obsolescence and loss had been transferred to the customer, and the customer had accepted the goods in accordance with the sales contract. The acceptance terms had expired, or the Group had objective evidence that all acceptance conditions had been met.

Payment terms and conditions vary by customers and are based on the billing schedule established in the contracts or purchase orders with customers, but the Group generally provides credit terms to overseas customers with 60 to 90 days upon customer acceptance. The Group takes advantage of the practical expedient in paragraph 63 of IFRS 15 and does not adjust the consideration for any effects of a significant financing component as the period of financing is 12 months or less.

The Group provided a standard warranty for the sales of goods and therefore had the obligation to provide a repair and maintenance for product defects. It had set aside a warranty liability provision for this obligation.

The Group offers retrospective volume rebates to certain major customers when their purchases reach an agreed threshold. Such volume rebates give rise to variable consideration based on the Group's current and further performance expectations and all information that is reasonably available. This estimated amount is included in the transaction price to the extent it is highly probable that a significant reversal of cumulative revenue recognised will not occur when the uncertainty associated with the variable consideration is resolved. At the time of sales of goods, the Group recognises revenue after taking into account adjustment to transaction price arising from rebates, and is included in other payables.

(ii) Rendering of services

Revenue from repair services is recognised in profit or loss when services are rendered.

(iii) Dividend income

Dividend income from unlisted investments is recognised when the shareholder's right to receive payment is established.

(iv) Interest income

Interest income is recognised as it accrues using the effective interest method. For financial assets measured at amortised cost that are not credit-impaired, the effective interest rate is applied to the gross carrying amount of the asset. For credit-impaired financial assets, the effective interest rate is applied to the amortised cost (i.e. gross carrying amount net of loss allowance) of the asset (see note 2(i)(i)).

(v) Rental income from operating leases

Rental income receivable under operating leases is recognised in profit or loss in equal instalments over the periods covered by the lease term, except where an alternative basis is more representative of the pattern of benefits to be derived from the use of the leased asset. Lease incentives granted are recognised in profit or loss as an integral part of the aggregate net lease payments receivable. Variable lease payments that do not depend on an index or a rate are recognised as income in the accounting period in which they are earned.

2 SIGNIFICANT ACCOUNTING POLICIES (Continued)

(s) Translation of foreign currencies

Foreign currency transactions during the year are translated at the foreign exchange rates ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated at the foreign exchange rates ruling at the end of the reporting period. Exchange gains and losses are recognised in profit or loss.

Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the foreign exchange rates ruling at the transaction dates. The transaction date is the date on which the Company initially recognises such non-monetary assets or liabilities. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated using the foreign exchange rates ruling at the dates the fair value was measured.

The results of foreign operations are translated into United States dollars at the exchange rates approximating the foreign exchange rate ruling at the dates of the transactions. Statement of financial position items are translated into United States dollars at the closing foreign exchange rates at the end of the reporting period. The resulting exchange differences are recognised in other comprehensive income and accumulated separately in equity in the exchange reserve.

On disposal of a foreign operation, the cumulative amount of the exchange differences relating to that foreign operation is reclassified from equity to profit or loss when the profit or loss on disposal is recognised.

(t) Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of an asset which necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of that asset. Other borrowing costs are expensed in the period in which they are incurred.

The capitalisation of borrowing costs as part of the cost of a qualifying asset commences when expenditure for the asset is being incurred, borrowing costs are being incurred and activities that are necessary to prepare the asset for its intended use or sale are in progress. Capitalisation of borrowing costs is suspended or ceases when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are interrupted or complete.

2 SIGNIFICANT ACCOUNTING POLICIES (Continued)

(u) Related parties

(a) A person, or a close member of that person's family, is related to the Group if that person:

(i) has control or joint control over the Group;

(ii) has significant influence over the Group; or

(iii) is a member of the key management personnel of the Group or the Group's parent.

(b) An entity is related to the Group if any of the following conditions applies:

(i) The entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).

(ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).

(iii) Both entities are joint ventures of the same third party.

(iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.

(v) The entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group.

(vi) The entity is controlled or jointly controlled by a person identified in (a).

(vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

(viii) The entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the Group's parent.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

(v) Segment reporting

Operating segments, and the amounts of each segment item reported in the financial statements, are identified from the financial information provided regularly to the Group's most senior executive management for the purposes of allocating resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

3 ACCOUNTING JUDGEMENT AND ESTIMATES

In the process of applying the Group's accounting policies, management has made the following accounting judgements:

(a) Impairment loss on other property, plant and equipment

The Group assesses annually whether there are indications of impairment of other property, plant and equipment in accordance with the relevant accounting policies. If such indication exists, the recoverable amounts of the assets would be determined by reference to value-in- use and fair value less costs of disposal. Value-in-use is determined using the discounted cash flow method. Due to inherent risk associated with estimations in the timing and magnitude of the future cash flows, the estimated recoverable amount of the assets may be different from its actual recoverable amount and the Group's profit or loss could be affected by the accuracy of the estimations. Changes in facts and circumstances may result in revisions to the conclusion of whether an indication of impairment exists and revised estimates of recoverable amounts, which would affect profit or loss in future years.

(b) Loss allowances on trade receivables

The Group uses provision matrix to calculate ECLs for trade and other receivables. The provision matrix is based on the Group's historical credit loss experience (including credit history of its customers) and the current and forecast economic conditions. Management reassesses the provision at the end of each reporting period.

Significant judgement is exercised on the assessment of the collectability of trade receivables from each customer. In making the judgement, management considers a wide range of factors such as results of follow-up procedures performed by sales personnel, coverage of credit insurance, customer payment trends including subsequent payments and customers' financial positions. If the financial conditions of the customers of the Group were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required.

(c) Net realisable value of inventories

Net realisable value of inventories is the estimated selling price in the ordinary course of business, less estimated costs of completion and selling expenses. These estimates are based on the current market prices and the historical experience of distributing and selling products of a similar nature. These estimates could vary significantly as a result of competitor actions in response to severe industry cycles or other changes in market conditions. Management reassesses the estimations at the end of each reporting period.

(Expressed in United States dollars unless otherwise indicated)

4 REVENUE AND SEGMENT REPORTING

(a) Disaggregation of revenue

The principal activities of the Group are manufacturing and sale of motorbikes, related spare parts and engines.

Further details regarding the Group's principal activities are disclosed in note 4(b).

Disaggregation of revenue from contracts with customers by major products or service lines is as follows:

	2022	2021
	US$	*US$*
Revenue from contracts with customers within the scope of IFRS 15		
Manufacture and sale of motorbikes	**120,545,295**	82,631,173
Manufacture and sale of spare parts and engines	**12,354,077**	10,268,193
Moulds and repair services	**–**	119,519
	132,899,372	93,018,885

Disaggregation of revenue from contracts with customers by geographic markets is disclosed in note 4(b)(ii).

The Group has applied the practical expedient in paragraph 121 of IFRS 15 to its sales contracts and does not disclose information about remaining performance obligations that have original expected duration of one year or less.

The Group's customer base is diversified and includes three customers (2021: two customers) with whom transactions have respectively exceeded 10% of the Group's revenue. During the year ended 31 December 2022, revenue from sales of motorbikes to the customers was as follows:

	2022	2021
	US$	*US$*
Customer A	**42,086,080**	30,301,385
Customer B	**21,362,815**	19,469,004
Customer C*	**13,563,241**	N/A

* Revenue from customer C for the year ended 31 December 2021 did not contribute over 10% of the total revenue of the Group.

Details of concentration of credit risk arising from the customers are set out in note 22(a).

4 REVENUE AND SEGMENT REPORTING (Continued)

(b) Segment reporting

The Group manages its businesses by divisions, which are organised by business lines (products and services). In a manner consistent with the way in which information is reported internally to the Group's most senior executive management for the purposes of resource allocation and performance assessment, the Group has presented the following three reportable segments.

- Manufacturing and sale of motorbikes: the Group's principal products are motorbikes manufactured for the Vietnamese market. The Group also exports motorbikes to other countries including Malaysia, the Philippines, Thailand, Greece, Dubai and Taiwan.

- Manufacturing and sale of spare parts and engines: the Group manufactures engines for use in the Group's motorbikes, while the Group also exports engines to third parties. The Group manufactures parts for use in repair servicing and product assembly.

- Moulds and repair services: the Group manufactures and maintains moulds used for making metal parts, for example, by die-casting and pressing. The Group manufactures moulds to its domestic suppliers and to domestic manufacturers unrelated to the production of parts for the Group's products.

Segment results

For the purposes of assessing segment performance and allocating resources between segments, the Group's senior executive management monitors the results attributable to each reportable segment on the following bases:

Revenue and expenses are allocated to the reportable segments with reference to sales generated by those segments and the expenses incurred by those segments.

The measure used for reporting segment result is "adjusted EBIT" i.e. "adjusted earnings or loss before interest and taxes", where "interest" is regarded as net finance income. To arrive at adjusted EBIT the Group's earnings are further adjusted for items not specifically attributed to individual segments, such as share of profit of an associate, impairment losses on non-current assets and other head office or corporate administration expenses.

In addition to receiving segment information concerning adjusted EBIT, management is provided with segment information concerning revenue (including inter-segment sales), and depreciation. Inter-segment sales are priced with reference to prices charged to external parties for similar orders.

(Expressed in United States dollars unless otherwise indicated)

4 REVENUE AND SEGMENT REPORTING (Continued)

(b) Segment reporting (Continued)

(i) Reconciliation of reportable segment revenues and profit or loss

Information regarding the Group's reportable segments as provided to the Group's senior executive management for the purposes of resource allocation and assessment of segment performance for the years ended 31 December 2022 and 2021 is set out below.

	2022			
	Manufacturing and sale of motorbikes *US$*	Manufacturing and sale of spare parts and engines *US$*	Moulds and repair services *US$*	Total *US$*
Revenue from external customers recognised at a point in time	120,545,295	12,354,077	–	132,899,372
Inter-segment revenue	–	36,952,824	–	36,952,824
Reportable segment revenue	120,545,295	49,306,901	–	169,852,196

	(81,912)	(1,432,994)

(Expressed in United States dollars unless otherwise indicated)

6 LOSS BEFORE TAXATION (Continued)

(b) Staff costs

	2022 US$	2021 US$
Contributions to defined contribution retirement plans	**1,133,980**	1,150,018
Severance pay allowance *(note 20)*	**87,170**	77,782
Salaries, wages and other benefits	**10,875,465**	9,957,004
	12,096,615	11,184,804

Description of the defined contribution retirement plan

The Group participates in a defined contribution plan managed by the Vietnam and Taiwan government whereby the Group is required to make contributions to the plan. The applicable rates are 17.5% and 3% of total contractual salaries for the employer's portion of social and health insurance respectively in Vietnam and 6% of total contractual salaries for the employer's contribution in Taiwan. The Group has no obligation for the payment of retirement benefits other than the contributions described above. The Group's contributions vest fully with the employees when contributed into the plan.

(c) Other items

	2022 US$	2021 US$
Depreciation of property, plant and equipment		
– other property, plant and equipment	**267,621**	153,646
– investment properties	**29,063**	29,258
	296,684	182,904
(Reversal of write-down)/write-down of inventories *(note 13(b))*	**(427,457)**	1,483,520
Loss allowance of trade receivables	**121,923**	–
Impairment loss on other property, plant and equipment *(note 11(c))*	**769,825**	390,545
Impairment loss on prepayments for other property, plant and equipment *(note 11(c))*	**8,975**	45,585
Auditors' remuneration		
– Audit services	**358,408**	353,465
– Other services	**4,586**	4,624
Research and development expenses *(note (i))*	**2,225,253**	2,065,613
Cost of inventories *(note (ii)) (note 13(b))*	**120,292,431**	85,675,741

Notes:

(i) Research and development expenses include amounts relating to technology transfer fees, staff costs, depreciation expenses, and other miscellaneous expenses, which are also included in the respective total amounts disclosed separately above or in note 6(b) for each of these types of expenses. No development expenditure was capitalised during the years ended 31 December 2022 and 2021.

(ii) Cost of inventories includes amounts relating to staff costs and depreciation expenses, which are also included in the respective total amounts disclosed separately above or in note 6(b) for each of these types of expenses.

(Expressed in United States dollars unless otherwise indicated)

7 INCOME TAX IN THE CONSOLIDATED STATEMENT OF PROFIT OR LOSS AND OTHER COMPREHENSIVE INCOME

(a) Income tax in the consolidated statement of profit or loss and other comprehensive income represents:

	2022	2021
	US$	*US$*
Current tax		
Provision for the year	**31,637**	13,026
Under/(over)-provision in respect of prior year	**3,825**	(12,662)
	35,462	364
Deferred tax		
Origination and reversal of temporary differences	**121,217**	(3,902)
Actual tax expense/(credit)	**156,679**	(3,538)

No provision for Hong Kong Profits Tax has been made as the Group did not earn any income subject to Hong Kong Profits Tax for the years ended 31 December 2022 and 2021.

Pursuant to the rules and regulations of the Cayman Islands, the Group is not subject to any income tax in the Cayman Islands.

In accordance with the Law of Foreign Investment of 1987, as amended in 1990 and 1992 in Vietnam, provision for corporate income tax ("CIT") for Vietnam Manufacturing and Export Processing Limited ("VMEP") is calculated at 18% of the taxable profits on motorbike assembling and manufacturing activities and at the rate of 10% of taxable profits on engine assembling and manufacturing activities. The applicable tax rate for profits from other operating activities is 20%.

In accordance with the Law of Foreign Investment of 1996, as amended in 2000 in Vietnam, the applicable CIT rate for Vietnam Casting Forge Precision Limited ("VCFP") is 15% from 2013 onwards.

The applicable tax rate for Chin Zong Trading Co., Ltd. ("Chin Zong") is 20% (2021: 20%), if the taxable profit is above new Taiwan Dollar ("NT$") 120,000. Income tax is exempt if the taxable profit is below NT$120,000.

(b) Reconciliation between tax expense/(credit) and accounting loss at applicable tax rates:

	2022	2021
	US$	*US$*
Loss before taxation	**(43,667)**	(5,572,081)
Notional tax on loss before taxation, calculated at the rates applicable to profit or loss in the countries concerned	**29,432**	(975,422)
Tax effect of non-deductible expenses	**663,120**	561,060
Tax effect of non-taxable income	**(21,240)**	(985)
Tax effect of unused tax losses not recognised	**–**	424,471
Tax effect of utilisation of tax losses previously not recognised	**(518,458)**	–
Under/(over)-provision in respect of prior year	**3,825**	(12,662)
Actual tax expense/(credit)	**156,679**	(3,538)

(Expressed in United States dollars unless otherwise indicated)

8 DIRECTORS' EMOLUMENTS

Directors' emoluments disclosed pursuant to section 383(1) of the Hong Kong Companies Ordinance and Part 2 of the Companies (Disclosure of Information about Benefits of Directors) Regulation are as follows:

	266,192	7,475	95,080	–	368,747

Chiang, Chin-Ying was reappointed as non-executive director on 1 September 2021.

The emoluments of each individual director are within the band of HK$Nil to HK$1,000,000 for both years ended 31 December 2022 and 2021.

9 INDIVIDUALS WITH HIGHEST EMOLUMENTS

Of the five individuals with the highest emoluments, two (2021: two are directors) are directors whose emoluments are disclosed in note 8. The aggregate of the emoluments in respect of the other three (2021: three) individuals are as follows:

	2022 ***US$***	2021 *US$*
Salaries and other benefits	**175,655**	200,181
Discretionary bonuses	**8,182**	8,549
	183,837	208,730

The emoluments of the three (2021: three) individuals with the highest emoluments are within the band of HK$Nil to HK$1,000,000 for both years ended 31 December 2022 and 2021.

(Expressed in United States dollars unless otherwise indicated)

10 LOSS PER SHARE

(a) Basic loss per share

The calculation of basic loss per share is based on the loss attributable to equity shareholders of the Company of US$200,346 (2021: US$5,568,542) and the weighted average of 907,680,000 (2021: 907,680,000) ordinary shares in issue during the year. The amount of basic loss per share is US$0.0002 (2021: US$0.0061) for the year ended 31 December 2022.

(b) Diluted loss per share

The amount of diluted loss per share is the same as the basic loss per share for the years ended 31 December 2022 and 2021 as there were no potential dilutive ordinary shares in existence during the years ended 31 December 2022 and 2021.

11 INVESTMENT PROPERTIES AND OTHER PROPERTY, PLANT AND EQUIPMENT

11 INVESTMENT PROPERTIES AND OTHER PROPERTY, PLANT AND EQUIPMENT (Continued)

(b) Right-of-use assets

Right-of-use assets represent the ownership interests in leasehold land and other properties leased for own use. During the year ended 31 December 2022, additions to right-of-use assets were US$1,801,971. This amount included the capitalised lease payments payable when renewal of tenancy agreement of warehouse and lease modification of leasehold land.

(i) Ownership interests in leasehold land

The Group holds several leasehold land for its motorbike business, where its manufacturing facilities are primarily located. The leases are with remaining lease term of between 10 and 50 years. The Group is the registered owner of these land.

(ii) Other properties leased for own use

The Group has obtained the right to use other properties as its office buildings and warehouses through tenancy agreements. The leases typically run for an initial period of one to five years.

(iii) The analysis of expense items in relation to leases recognised in profit or loss is as follows:

	2022 ***US$***	2021 *US$*
Interest on lease liabilities *(note 6(a))*	**166,063**	50,824
Expense relating to leases of low-value assets	**1,815**	937

(c) Impairment losses

The manufacturing and sale of motorbikes segment, manufacturing and sale of spare parts and engines segment and moulds and services segment ("motorbike business") in Vietnam are considered one cash generating unit ("CGU") of the Group.

The Group suffered significant operating losses (before impairment losses on non-current assets) over the past few years due to the fierce competition in the motorbike industry and increase of manufacturing costs on new launched products. Based on an impairment assessment conducted by management, impairment losses totalling US$778,800 (2021: US$436,130) was recognised in profit or loss during the year to write down the carrying value of other property, plant and equipment and prepayments for other property, plant and equipment of the CGU to their recoverable amounts.

The recoverable amount of the CGU is determined based on the higher of its value-in-use and the fair value less costs of disposal. Management identified certain buildings included in the CGU, which carrying values are likely to be recovered through a sales transaction. The recoverable amounts of these buildings are measured based on their fair value less costs of disposal. This valuation model considers recent sales prices of comparable properties on a price per square foot basis, adjusted for a premium or a discount specific to the quality of the Group's buildings compared to the recent sales. Higher premium for higher quality buildings will result a higher fair value measurement. The fair value on which recoverable amount is based is categorised as a Level 3 measurement under the three-level fair value hierarchy as defined in IFRS 13, *Fair Value Measurement*. Key unobservable inputs include the premium on quality of the buildings 5% (2021: 3%). For assets which management considers are likely to be recovered through continuing use, the Group assessed the recoverable amount based on value-in-use calculation. These calculations use cash flow forecast based on financial budgets approved by management in which cash flows are discounted using pre-tax discount rate of 13% (2021: 13%).

(Expressed in United States dollars unless otherwise indicated)

11 INVESTMENT PROPERTIES AND OTHER PROPERTY, PLANT AND EQUIPMENT (Continued)

(d) Fair value of investment properties

As at 31 December 2022, the fair value of investment properties amounted to US$6,869,000 (2021: US$6,904,000) which is determined based on valuations carried out by Hoang Quan Appraisal Limited and Dinh Vang Co., Ltd., independent professional valuers.

The fair value of the Group's investment properties falls under Level 3 of the three-level fair value hierarchy as defined in IFRS 13. The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique. The fair value of investment properties are determined on market basis by reference to comparable sales evidence as available in the relevant markets, with adjustments to the comparable transactions to reflect the differences in specifications between the subjects and comparable.

12 INTEREST IN AN ASSOCIATE

The Group's interest in an associate of US$605,801 (2021: US$615,055) at 31 December 2022 represents its share of the net assets of the Vietnam Three Brothers Machinery Industry Co., Limited ("VTBM").

VTBM was originally a wholly foreign-owned enterprise established on 5 September 2002 with a registered capital of US$1,000,000 by Three Brothers Machinery Industry Co., Ltd. (registered in Taiwan), a subsidiary of Sanyang Motor Co., Ltd., the Company's ultimate holding company. On 7 April 2003, the Group acquired 31% of the contributed capital of VTBM.

VTBM's licensed period of operation is 50 years and its principal activities are manufacturing and sale of motorbike-related spare parts.

VTBM is accounted for using the equity method in the consolidated financial statements.

Summarised financial information of VTBM, adjusted for any differences in accounting policies, and reconciled to the carrying amount in the consolidated financial statements, are disclosed below:

	2022 ***US$***	2021 *US$*
Gross amount of the associate		
Current assets	**2,457,984**	2,329,055
Non-current assets	**505,066**	640,621
Current liabilities	**(1,008,853)**	(985,628)
Equity	**1,954,197**	1,984,048
Revenue	**7,981,474**	10,667,721
Profit from continuing operations	**11,816**	88,653
Other comprehensive income	**(41,667)**	24,301
Total comprehensive income	**(29,851)**	112,954
Reconciled to the Group's interest in the associate		
Gross amount of net assets of the associate	**1,954,197**	1,984,048
Group's effective interest	**31%**	31%
Group's share of net assets of the associate and the carrying amount in the consolidated financial statements	**605,801**	615,055

(Expressed in United States dollars unless otherwise indicated)

13 INVENTORIES

(a) Inventories in the consolidated statement of financial position comprise:

	2022 US$	2021 US$
Motorbikes manufacturing		
– Raw materials	**20,318,760**	23,698,036
– Tools and supplies	**274,719**	354,000
– Work in progress	**316,166**	319,890
– Finished goods	**2,726,324**	2,695,201
– Merchandise inventories *(note (i))*	**2,322,440**	3,104,430
	25,958,409	30,171,557
Provision for write-down of inventories	**(2,954,049)**	(3,689,771)
	23,004,360	26,481,786
Properties *(note (ii))*	**2,947,458**	3,010,471
	25,951,818	29,492,257

Notes:

(i) Merchandise inventories mainly represent spare parts kept for repairs and maintenance.

(ii) The balance represents the share of properties interest under an investment cooperation memorandum. In 2019, the Group has established a joint arrangement with an unrelated third party to undertake property investing in Vietnam in the form of a joint operation. In accordance with the investment cooperation memorandum, the decisions about relevant activities require unanimous consent of the parties sharing control and, therefore management has accounted for the investments as a joint operation, which is accounted for using the line-by-line basis to the extent of the Group's interest in the joint operation. Details of the arrangement and key terms of the investment cooperation memorandum were disclosed in the Company's announcements dated 24 October 2019 and 4 November 2019. At 31 December 2022 and 31 December 2021, the properties are under development stage.

(b) The analysis of the amount of inventories recognised as an expense and included in profit or loss is as follows:

	2022 US$	2021 US$
Carrying amount of inventories sold	**120,292,431**	85,675,741
(Reversal of write-down)/write-down of inventories	**(427,457)**	1,483,520
	119,864,974	87,159,261

(Expressed in United States dollars unless otherwise indicated)

13 INVENTORIES (Continued)

(c) Movements in the provision for write-down of inventories were as follows:

	2022 US$	2021 US$
At 1 January	**3,689,771**	2,733,199
(Reversal)/additions	**(427,457)**	1,483,520
Utilisation	**(236,787)**	(565,739)
Exchange adjustments	**(71,478)**	38,791
At 31 December	**2,954,049**	3,689,771

14 TRADE RECEIVABLES, OTHER RECEIVABLES AND PREPAYMENTS

	2022 US$	2021 US$
Trade receivables *(note 14(a))*	**19,740,540**	10,543,474
Non-trade receivables *(note 14(b))*	**16,714,310**	14,491,519
Prepayments *(note 14(c))*	**277,416**	160,080
Amounts due from related parties *(note 24(b))*		
– Trade *(note 14(a))*	**66,879**	527,928
– Non-trade	**347**	55,261
	36,799,492	25,778,262

(a) Trade receivables

(i) Ageing analysis

All of the trade receivables (including trade receivables and amounts due from related parties) are expected to be recovered within one year.

As of the end of the reporting period, the aging analysis of trade receivables, based on the invoice date (or date of revenue recognition, if earlier) and net of loss allowance, is as follows:

	2022 US$	2021 US$
Within 3 months	**19,679,572**	10,539,789
More than 3 months but within 1 year	**127,847**	530,802
More than 1 year	**–**	811
	19,807,419	11,071,402

Trade receivables are due within 60 to 90 days from the date of billing. Further details on the Group's credit policy are set out in note 22(a).

(Expressed in United States dollars unless otherwise indicated)

14 TRADE RECEIVABLES, OTHER RECEIVABLES AND PREPAYMENTS (Continued)

(a) Trade receivables (Continued)

(ii) Trade receivables that are not impaired

The aging analysis of trade receivables of the Group that are neither individually nor collectively considered to be impaired are as follows:

	2022 US$	2021 US$
Neither past due nor impaired	19,223,672	10,039,633
Less than 1 month past due	92,053	369,950
1 to 3 months past due	444,693	130,206
3 months to 1 year past due	47,001	530,802
More than 1 year past due	–	811
	583,747	1,031,769
	19,807,419	11,071,402

(b) Non-trade receivables

	2022 US$	2021 US$
Deductible value-added tax	5,890,623	5,611,170
Import tax refundable	7,744,887	6,058,004
Interest receivable	1,277,118	1,116,031
Others	1,801,682	1,706,314
	16,714,310	14,491,519

The above balances are expected to be recovered or utilised within one year.

(c) Prepayments

	2022 US$	2021 US$
Prepayments	137,449	85,228
Advances to suppliers	139,967	74,852
	277,416	160,080

15 CASH AND BANK BALANCES

	Note	2022 US$	2021 US$
Cash at banks and on hand		**7,932,734**	8,911,391

Denominated in VN$	**44,452,803**	36,496,666
Denominated in US$	**325,574**	3,550,000
	44,778,377	40,046,666

The effective interest rates per annum relating to time deposits maturing after three months are as follows:

	2022	2021
Effective interest rates – VN$	**4.4% – 7.8%**	4.4% – 6.0%
Effective interest rates – US$	**1.44%**	0.3%

As at 31 December 2022, certain of the Group's time deposits with an aggregate value of US$24,809,910 (2021: US$22,351,871) were pledged to secure bank loans of the Group (see note 17).

(Expressed in United States dollars unless otherwise indicated)

15 CASH AND BANK BALANCES (Continued)

(c) Reconciliation of liabilities arising from financing activities

The table below details changes in the Group's liabilities from financing activities, including both cash and non-cash changes. Liabilities arising from financing activities are liabilities for which cash flows were, or future cash flows will be, classified in the Group's consolidated cash flow statement as cash flows from financing activities.

	Bank loans *US$* *(note 17)*	Lease liabilities *US$* *(note 18)*	Total *US$*
At 1 January 2022	**36,052,299**	**708,951**	**36,761,250**
Changes from financing cash flows:

Interest expenses *(note 6(a))*	902,392	50,824	953,216
Total other changes	1,313,113	60,244	1,373,357
At 31 December 2021	36,052,299	708,951	36,761,250

(d) Total cash outflow for leases

Amounts included in the consolidated cash flow statement for leases comprise the following:

	2022	2021
	US$	*US$*
Within operating cash flows	**1,815**	937
Within financing cash flows	**217,650**	91,036
	219,465	91,973

These amounts relate to the following:

	2022	2021
	US$	*US$*
Lease rentals paid	**219,465**	91,973

(Expressed in United States dollars unless otherwise indicated)

16 TRADE AND OTHER PAYABLES

	2022 US$	2021 US$
Trade payables *(note 16(a))*	**8,431,671**	4,711,066
Other payables and accrued operating expenses *(note 16(b))*	**5,359,558**	5,091,241
Contract liabilities – billings in advance of performance *(note 16(c))*	**733,388**	1,280,985
Amounts due to related parties *(note 24(c))*		
– Trade *(note 16(a))*	**17,295,814**	11,961,731
– Non-trade	**415,194**	243,874
	32,235,625	23,288,897

All the trade and other payables are expected to be settled or recognised as income within one year or are repayable on demand.

(a) Trade payables

As of the end of the reporting period, the aging analysis of trade payables of the Group (including trade payables due to related parties), based on the invoice date, is as follows:

	2022 US$	2021 US$
Within 3 months	**25,718,605**	16,647,442
More than 3 months but within 1 year	**4,893**	24,739
More than 1 year but within 5 years	**3,987**	616
	25,727,485	16,672,797

(b) Other payables and accrued operating expenses

	2022 US$	2021 US$
Other tax payables	**96,073**	47,913
Commission and bonuses payable to dealers	**320,511**	779,200
Accrued expenses	**2,454,938**	2,040,276
Other payables	**2,488,036**	2,223,852
	5,359,558	5,091,241

(c) Contract liabilities – billings in advance of performance

When the Group receives a deposit before the delivery of products in its sales activity, this will give rise to contract liabilities at the start of a contract, until the revenue recognised on the sales exceeds the amount of the deposit. The Group typically receives a 100% deposit on acceptance of domestic sales orders. The amount of revenue recognised during the year ended 31 December 2022 that was included in the contract liabilities at the beginning of the year is US$1,280,985 (2021: US$596,014).

(Expressed in United States dollars unless otherwise indicated)

17 BANK LOANS

At 31 December 2022, the bank loans are interest-bearing at 3.5% to 8.0% (2021: 2.0% to 3.4%) per annum and to be settled within 4 to 6 months. The bank loans of the Group were secured by certain time deposits of the Group (see note 15(b)).

18 LEASE LIABILITIES

The following table shows the remaining contractual maturities of the Group's lease liabilities at the end of the current and previous reporting periods:

	2022		2021	
	Present value of the minimum lease payments	**Total minimum lease payments**	Present value of the minimum lease payments	Total minimum lease payments
	US$	***US$***	*US$*	*US$*
Within 1 year	**52,091**	**214,647**	9,302	57,511
After 1 year but within 2 years	**55,633**	**214,647**	6,867	54,443
After 2 years but within 5 years	**190,645**	**643,940**	23,531	163,328
After 5 years	**2,092,151**	**3,773,813**	669,251	1,553,709

	19,879	(25,169)

(Expressed in United States dollars unless otherwise indicated)

19 INCOME TAX IN THE CONSOLIDATED STATEMENT OF FINANCIAL POSITION (Continued)

(b) Deferred tax assets/(liabilities) recognised:

The components of deferred tax assets/(liabilities) recognised in the consolidated statement of financial position and the movements during the year are as follows:

Deferred tax arising from:	**Unrealised exchange differences** *US$*
At 1 January 2021	87,913
Credit to profit or loss	3,902
Exchange adjustments	1,388
At 31 December 2021 and 1 January 2022	93,203
Charge to profit or loss	(121,217)
Exchange adjustments	(5,593)
At 31 December 2022	(33,607)

(c) Deferred tax assets not recognised:

In accordance with the accounting policy set out in note 2(p), the Group has not recognised deferred tax assets in respect of cumulative tax losses of US$34,204,871 (2021: US$36,081,825) of a subsidiary as at 31 December 2022, as it is not probable that future taxable profits against which the losses can be utilised will be available in the relevant tax jurisdiction and entity. The tax losses would expire within 5 years under current tax legislation.

20 PROVISIONS

	Warranties *US$*	**Severance pay** *US$*	**Total** *US$*
At 1 January 2021	56,465	1,043,941	1,100,406

At 31 December 2022	222,014	1,025,274	1,247,288

Pursuant to the labour regulations in Vietnam, employers are required to pay a severance allowance to each local employee, who joined the Company before 1 January 2009, which was calculated as half a month's salary for every completed year of service when the employee leaves the Group. In addition, pursuant to the policy of the Group, a severance allowance will be paid to each Taiwanese employee (calculated as one month's salary for every completed year of service) when the employee leaves the Group. For both severance allowances, the obligation vests and is payable regardless of the reasons for departure.

(Expressed in United States dollars unless otherwise indicated)

21 CAPITAL AND RESERVES

(a) Movements in components of equity

The reconciliation between the opening and closing balances of each component of the Group's consolidated equity is set out in the consolidated statement of changes in equity. Details of the changes in the Company's individual components of equity between the beginning and the end of the year are set out below:

The Company	Share capital *US$*	Share premium *US$*	Capital reserve *US$*	Accumulated losses *US$*	Total *US$*
Balance at 1 January 2021	1,162,872	112,198,709	1,962,666	(58,607,932)	56,716,315
Change in equity for 2021:					
Total comprehensive income for the year	–	–	–	(5,004,073)	(5,004,073)
Balance at 31 December 2021 and 1 January 2022	1,162,872	112,198,709	1,962,666	(63,612,005)	51,712,242
Change in equity for 2022:					
Total comprehensive income for the year	–	–	–	(1,769,333)	(1,769,333)
Balance at 31 December 2022	1,162,872	112,198,709	1,962,666	(65,381,338)	49,942,909

(b) Share capital

	2022 Number of shares	**2022** Amount *US$*	2021 Number of shares	2021 Amount *US$*
Authorised:				
Ordinary shares of HK$0.01 each	**10,000,000,000**	**12,811,479**	10,000,000,000	12,811,479
Ordinary shares, issued and fully paid:				
At 1 January/31 December	**907,680,000**	**1,162,872**	907,680,000	1,162,872

The holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share at meetings of the Company. All ordinary shares rank equally with regard to the Company's residual assets.

21 CAPITAL AND RESERVES (Continued)

(c) Nature and purpose of reserves

(i) Share premium

Share premium represents the difference between the par value of the shares of the Company and proceeds received from the issuance of shares of the Company. Under the Companies Law of the Cayman Islands, the share premium account of the Company is distributable to the shareholders of the Company provided that immediately following the date on which a dividend is proposed to be distributed, the Company would be in a position to pay off its debts as they fall due in the ordinary course of business.

(ii) Exchange reserve

The exchange reserves comprise all foreign exchange differences arising from the translation of the financial statements of foreign operations. The reserve is dealt with in accordance with the accounting policy adopted for foreign currencies (see note 2(s)).

(d) Distributability of reserves

At 31 December 2022, the aggregate amount of reserves available for distribution to equity shareholders of the Company was US$48,780,037 (2021: US$50,549,370).

(e) Capital management

The Group's primary objectives when managing capital are to safeguard the Group's ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders, by pricing products and services commensurately with the level of risk and by securing access to finance at a reasonable cost.

The Group defines "capital" as including all components of equity less unaccrued proposed dividends.

The Group actively and regularly reviews and manages its capital structure to maintain a balance between the higher shareholders returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position, and makes adjustments to the capital structure in light of changes in economic conditions.

Neither the Company nor any of its subsidiaries are subject to externally imposed capital requirements in either the current or prior year.

22 FINANCIAL RISK MANAGEMENT AND FAIR VALUES OF FINANCIAL INSTRUMENTS

The Group's business strategies, tolerance of risk and general risk management philosophy are determined by the management in accordance with prevailing economic and operating conditions.

The Group's financial assets comprise mainly cash and cash equivalents, trade and other receivables and deposits with banks. The Group's financial liabilities comprise bank loans and trade and other payables.

Exposure to credit, currency, interest rate and liquidity risks arises in the normal course of the Group's business. The Group's exposure to these risks and the financial risk management policies and practices used by the Group to manage these risks are described below.

(a) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counter party to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's trade receivables from customers. The Group's exposure to credit risk arising from bank deposits and cash is limited because the counterparties are banks and financial institutions with high credit rating for which the Group considers to have low risk.

The Group's exposure to credit risk is low as the Group generally offers no credit terms to domestic customers, which accounted for approximately 22% (2021: 19%) of total revenue. Overseas customers are generally granted credit terms ranging from 30 days to 90 days.

At the end of the reporting period, 35% (2021: 40%) of the total trade receivables was due from the Group's largest debtor.

Management has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis. Individual credit evaluations are performed on all customers requiring credit over a certain amount. These evaluations focus on the customer's past history of making payments when due and current ability to pay, and take into account information specific to the customer as well as pertaining to the economic environment in which the customer operates. Trade receivables are due within 30 to 90 days from the date of billing. Normally, the Group does not obtain collateral from customers.

The Group measures loss allowances for trade receivables at an amount equal to lifetime ECLs, which is calculated using a provision matrix. As the Group's historical credit loss experience does not indicate significantly different loss patterns for different customer segments, the loss allowance based on past due status is not further distinguished between the Group's different customer bases.

The Group measures loss allowance on financial assets based on the past loss experience, existing market conditions, coverage of credit insurance as well as forward looking information at the end of each reporting period. Having considered those factors, the Group considered that there is no significant loss allowance recognised in accordance with IFRS 9 as at 31 December 2022 and 2021, and no expected credit loss rate has therefore been disclosed. The Group has recognised loss allowance in respect of trade receivables of US$121,923 (2021: nil) for the year ended 31 December 2022.

22 FINANCIAL RISK MANAGEMENT AND FAIR VALUES OF FINANCIAL INSTRUMENTS (Continued)

(b) Currency risk

The Group is exposed to currency risk primarily through sales and purchases which give rise to receivables, payables and cash balances that are denominated in a foreign currency i.e. a currency other than the functional currency of the operations to which the transactions relate. In addition, the Group's deposits with banks and bank loans denominated in a currency other than the functional currency of the entity to which they relate also give rise to currency risk. The currency giving rise to significant currency risk is primarily US$.

The Group ensures that the net exposure to this risk is kept to an acceptable level by buying or selling foreign currencies at spot rates where necessary to address short-term imbalances.

(i) Exposure to currency risk

The following table details the Group's exposure at the end of the reporting period to currency risk arising from recognised assets or liabilities denominated in a currency other than the functional currency of the entity to which they relate. For presentation purposes, the amounts of the exposure are shown in United States dollars, translated using the spot rate at the end of the reporting period. Differences resulting from the translation of the financial statements of foreign operations into the Group's presentation currency are excluded.

2022	**Exposure to foreign currencies (expressed in US$)** ***US$***
Trade and other receivables	**17,680,423**
Time deposits maturing after three months	**325,574**
Cash and cash equivalents	**5,853,200**
Trade and other payables	**(20,852,676)**
Bank loans	**(39,650,761)**
Net exposure arising from recognised assets and liabilities	**(36,644,240)**

2021	Exposure to foreign currencies (expressed in US$) *US$*
Trade and other receivables	8,678,082
Time deposits maturing after three months	1,950,000
Cash and cash equivalents	2,271,978
Trade and other payables	(1,564,134)
Bank loans	(34,544,051)
Net exposure arising from recognised assets and liabilities	(23,208,125)

(Expressed in United States dollars unless otherwise indicated)

22 FINANCIAL RISK MANAGEMENT AND FAIR VALUES OF FINANCIAL INSTRUMENTS (Continued)

(b) Currency risk (Continued)

(ii) Sensitivity analysis

The following table indicates the instantaneous change in the Group's loss after tax and accumulated losses that would arise if foreign exchange rate to which the Group has significant exposure at the end of the reporting period had changed at that date, assuming all other risk variables remained constant.

	2022			2021		
	Increase/ (decrease) in foreign exchange rates	Increase/ (decrease) loss after tax *US$*	Increase/ (decrease) accumulated losses *US$*	Increase/ (decrease) in foreign exchange rates	Increase/ (decrease) loss after tax *US$*	Increase/ (decrease) accumulated losses *US$*
US$	5%	1,507,463	1,507,463	5%	954,545	954,545
	(5)%	(1,507,463)	(1,507,463)	(5)%	(954,545)	(954,545)

Results of the analysis as presented in the above table represent an aggregation of the instantaneous effects on each of the Group entities' loss after tax and equity measured in the respective functional currencies, translated into US$ at the exchange rate ruling at the end of the reporting period for presentation purposes.

The sensitivity analysis assumes that the change in foreign exchange rates had been applied to re-measure those financial instruments held by the Group which expose the Group to currency risk at the end of the reporting period, including inter-company payables and receivables within the Group which are denominated in a currency other than the functional currencies of the lender or the borrower. The analysis excludes differences that would result from the translation of the financial statements of foreign operations into the Group's presentation currency. The analysis is performed on the same basis for 2021.

(c) Interest rate risk

The Group's interest rate risk arises primarily from bank deposits and bank borrowings. All the bank borrowings are on fixed rate basis. The Group did not materially expose to interest rates fluctuation.

(Expressed in United States dollars unless otherwise indicated)

22 FINANCIAL RISK MANAGEMENT AND FAIR VALUES OF FINANCIAL INSTRUMENTS (Continued)

(d) Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The individual subsidiaries within the Group are responsible for their own cash management, including raising loans to cover the expected cash demands, subject to approval by the Company's board of directors. The Group's policy is to regularly monitor its liquidity requirements to ensure that the Group maintains sufficient reserves of cash and adequate committed lines of funding from banks to meet its liquidity requirements in the short and longer term. The contractual maturities of financial liabilities are disclosed in notes 16, 17 and 18.

The following tables show the remaining contractual maturities at the end of the reporting period of the Group's non-derivative financial liabilities, which are based on the contractual undiscounted cash flows (including interest payments computed using contractual rates or, if floating, based on the rates current at the end of the reporting period) and the earliest date the Group can be required to pay:

	Contractual undiscounted cash outflow					
2022	**Within 1 year or on demand** ***US$***	**1 to 2 years** ***US$***	**2 to 5 years** ***US$***	**More than 5 years** ***US$***	**Total** ***US$***	**Carrying amount at 31 December** ***US$***
Trade and other payables excluding contract liabilities	**31,502,237**	**–**	**–**	**–**	**31,502,237**	**31,502,237**
Bank loans	**40,858,703**	**–**	**–**	**–**	**40,858,703**	**40,210,386**
Lease liabilities	**214,647**	**214,647**	**643,940**	**3,773,813**	**4,847,047**	**2,390,520**
	72,575,587	**214,647**	**643,940**	**3,773,813**	**77,207,987**	**74,103,143**

	Contractual undiscounted cash outflow					
2021	Within 1 year or on demand *US$*	1 to 2 years *US$*	2 to 5 years *US$*	More than 5 years *US$*	Total *US$*	Carrying amount at 31 December *US$*
Trade and other payables excluding contract liabilities	22,007,912	–	–	–	22,007,912	22,007,912
Bank loans	36,421,614	–	–	–	36,421,614	36,052,299
Lease liabilities	57,511	54,443	163,328	1,553,709	1,828,991	708,951
	58,487,037	54,443	163,328	1,553,709	60,258,517	58,769,162

(e) Business risk

The Group has certain concentration risk of raw materials and finished goods sourcing from related parties. The Group's total purchases of raw materials and finished goods from the related parties amounted to US$47,746,295 (2021: US$40,588,301) which accounted for approximately 46% (2021: 53%) of the Group's total purchases for the year ended 31 December 2022.

In the opinion of the directors, the Group has taken appropriate quality control measures to mitigate the effect from any claims caused by products, which may affect adversely its financial results and has made sufficient provision for warranty claims.

(f) Fair value measurement

The carrying amounts of the Group's financial instruments carried at cost or amortised cost are not materially different from their fair values as at 31 December 2022 and 2021.

(Expressed in United States dollars unless otherwise indicated)

23 COMMITMENTS

Capital commitments outstanding at 31 December 2022 not provided for in the financial statements were as follows:

	2022 *US$*	2021 *US$*
Contracted for	–	1,265,084

24 MATERIAL RELATED PARTY TRANSACTIONS

26 IMMEDIATE AND ULTIMATE CONTROLLING PARTY

At 31 December 2022, the directors consider the immediate parent and ultimate controlling party of the Company to be SY International Ltd. and Sanyang Motor Co., Ltd., respectively. Sanyang Motor Co., Ltd. is incorporated in Taiwan and produces financial statements available for public use.

27 POSSIBLE IMPACT OF AMENDMENTS, NEW STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE FOR THE YEAR ENDED 31 DECEMBER 2022

Up to the date of issue of these financial statements, the IASB has issued a number of new or amended standards, which are not yet effective for the year ended 31 December 2022 and which have not been adopted in these financial statements. These developments include the following which may be relevant to the Group.

	Effective for accounting periods beginning on or after
IFRS 17, *Insurance contracts*	1 January 2023
Amendments to IAS 1, *Presentation of financial statements*: *Classification of liabilities as current or non-current*	1 January 2023
Amendments to IAS 1, *Presentation of financial statements* and HKFRS Practice Statement 2, *Making materiality judgements: Disclosure of accounting policies*	1 January 2023
Amendments to IAS 8, *Accounting policies, changes in accounting estimates and errors: Definition of accounting estimates*	1 January 2023
Amendments to IAS 12, *Income taxes*: *Deferred tax related to assets and liabilities arising from a single transaction*	1 January 2023

The Group is in the process of making an assessment of what the impact of these developments is expected to be in the period of initial application. So far it has concluded that the adoption of them is unlikely to have a significant impact on the consolidated financial statements.
