1. BASIS OF PREPARATION

The financial information set out in this announcement does not constitute the Group's interim financial report for the six months ended 30 June 2015, but is derived from this interim financial report.

The interim financial report has been prepared in accordance with the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited, including compliance with International Accounting Standard ("IAS") 34, *Interim financial reporting*, issued by the International Accounting Standards Board ("IASB"). It was authorized for issue on 11 August 2015.

The interim financial report has been prepared in accordance with the same accounting policies adopted in the 2014 annual financial statements, except for the accounting policy changes that are expected to be reflected in the 2015 annual financial statements. Details of any changes in accounting policies are set out in note 2.

The preparation of an interim financial report in conformity with IAS 34 requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses on a year to date basis. Actual results may differ from these estimates.

The interim financial report contains condensed consolidated financial statements and selected explanatory notes. The notes include an explanation of events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the 2014 annual financial statements. The condensed consolidated interim financial statements and notes thereon do not include all of the information required for full set of financial statements prepared in accordance with International Financial Reporting Standards ("IFRSs").

The interim financial report is unaudited, but has been reviewed by KPMG in accordance with Hong Kong Standard on Review Engagements 2410, *Review of interim financial information performed by the independent auditor of the entity*, issued by the Hong Kong Institute of Certified Public Accountants.

The financial information relating to the financial year ended 31 December 2014 that is included in the interim financial report as being previously reported information does not constitute the Company's financial statements for that financial year but is derived from those financial statements. The auditors have expressed an unqualified opinion on those financial statements in their report dated 16 March 2015.

2. CHANGES IN ACCOUNTING POLICIES

The IASB has issued the following amendments to IFRSs that are first effective for the current accounting period of the Group and the Company:

- *Annual improvements to IFRSs 2010-2012 Cycle*
- *Annual improvements to IFRSs 2011-2013 Cycle*

None of these developments has had a material effect on how the Group's results and financial position for the current or prior periods have been prepared or presented. The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period.

3. SEGMENT REPORTING

The Group manages its businesses by divisions, which are organised by a mixture of both business lines (products and services) and geography. In a manner consistent with the way in which information is reported internally to the Group's most senior executive management for the purposes of resource allocation and performance assessment, the Group has identified three reportable segments. No operating segments have been aggregated to form the following reportable segments.

MANAGEMENT DISCUSSION & ANALYSIS

Vietnam Manufacturing and Export Processing (Holdings) Limited (the “Company”) and its subsidiaries (the “Group”) is one of the leading manufacturers of scooters and cub motorbikes in Vietnam. Its manufacturing and assembly operations are located in Dong Nai Province (near Ho Chi Minh City) and Hanoi of Vietnam with an annual production capacity of 360,000 motorbikes. Offering a wide range of models, the Group’s motorbikes are sold under the SYM brand name. It also produces motorbike engines and parts for internal use and export as well as selling and providing services associated with moulds to make die-cast and forged metal parts.

Operation Environment

Vietnam's recovery remains on track, with gross domestic product (GDP) growth improving to 6.3% year-on-year in the first half of 2015 according to General Statistics Office of Vietnam. Inflation fell to 2.1% which remains well below the Vietnam’s central bank’s target of 5% for 2015. The central bank of Vietnam has devalued the currency twice so far this year, most recently in May 2015 to 21,780 Vietnamese Dong per US dollar, in an effort to boost sluggish exports. Vietnam’s economy has been improving in the recent years with falling inflation, the current account balance has been in surplus, the parallel and interbank rates were well within the official exchange rate band, and international reserves rose above the level in the pre-global financial crisis periods.

Vietnam's retail and consumption service revenue growth rose only slightly compared to last year, businesses continue to face many difficulties. The growth of motorbike sales has further slowed down and units sold by foreign direct invest manufacturers have slowed down by 4% over the same period of previous year. The over-expansion of the foreign motorbike manufacturers in Vietnam continued and created competition with the Group during the period.

BUSINESS REVIEW

The Group sold an aggregate of approximately 29,900 units (which comprised of approximately 9,400 units of scooters and 20,500 units of cubs, respectively) in Vietnam for the six months ended 30 June 2015, representing a decrease of 15% over the corresponding period of previous year. The Group sold approximately 52,800 units of scooters and cubs to ASEAN countries, representing a decrease of 32% over the comparative period of previous year, in particular, there has been a sharp fall in sales in Malaysia as the Malaysian government imposed a 6% goods and services tax in the second quarter of 2015.

During the first half of 2015, the Group has 219 SYM-authorized stores owned by dealers to cover almost every province in Vietnam.

FINANCIAL REVIEW

Revenue decreased by 20% from US$88.4 million for the six months ended 30 June 2014 to US$70.5 million for the six months ended 30 June 2015, the Group's net loss for the six months ended 30 June 2015 improved by 27%, from a loss of US$5.2 million for the six months ended 30 June 2014 to a loss of US$3.8 million for the six months ended 30 June 2015.

REVENUE

The Group's revenue decreased by 20% or US$17.9 million, from US$88.4 million for the six months ended 30 June 2014 to US$70.5 million for the six months ended 30 June 2015, resulting from the decrease in the sales in Vietnam and ASEAN countries. The Group's overall sales quantities and sales quantities of scooters in Vietnam decreased by 15% and 28%, respectively for the six months ended 30 June 2015 as compared with the six months ended 30 June 2014, the decrease was due to a low level of economy and domestic spending in Vietnam during the period. The Group's sales quantities to ASEAN countries decreased by 32% for the six months ended 30 June 2015 as compared with the six months ended 30 June 2014. There has been a sharp fall in sales in Malaysia as the Malaysian government imposed a 6% goods and services tax in the second quarter of 2015. In terms of geographical contribution, approximately 58% of the Group's total sales were generated from the domestic market in Vietnam for the six months ended 30 June 2015. The principal scooter models include ATTILA-V, VENUS and ELIZABETH, PASSING and SHARK, and cub models of ELEGANT, GALAXY and ANGELA。

COST OF SALES

The Group's cost of sales decreased by 21%, from US$82.2 million for the six months ended 30 June 2014 to US$65.1 million for the six months ended 30 June 2015, resulting from the drop of sales in Vietnam and ASEAN countries. As a percentage of total revenue, the Group's cost of sales decreased from 93% for the six months ended 30 June 2014 to 92% for the six months ended 30 June 2015. Such decrease was primarily due to cost reduction arising from expanding procurement sources for materials and components, and effort to enhance cost effectiveness.

GROSS PROFIT AND GROSS PROFIT MARGIN

Owing to the drop of sales, the decrease of materials and components costs as discussed above, the gross profit of the Group decreased by 13%, from US$6.1 million for the six months ended 30 June 2014 to US$5.4 million for the six months ended 30 June 2015. The Group's distribution expenses decreased by 24%, from US$5.6 million for the six months ended 30 June 2014 to US$4.3 million for the six months ended 30 June 2015. TECHNOLOGY TRANSFER FEES

The technology transfer fees decreased by 23%, from US$2.1 million for the six months ended 30 June 2014 to US$1.6 million for the six months ended 30 June 2015, resulting from a decrease in the sales of SYM-branded motorbikes in Vietnam and ASEAN countries.

The Group's net finance income decreased by 38%, from US$2.6 million for the six months ended 30 June 2014 to US$1.6 million for the six months ended 30 June 2015. Such decrease was mainly attributable to a decrease in interest income by US$0.2 million and an increase of bank interest expenses by US$0.2 million. Foreign exchange losses arisen from fluctuation of the Vietnamese Dong against the US dollar for the six months ended 30 June 2014 increased from US$0.1 million to US$0.6 million for the six months ended 30 June 2015.

PROSPECTS

The Vietnamese economy has been stabilized with full-year growth target to pick up to 6.4% this year, driven by stronger domestic demand. It is expected that the forthcoming period will continue to be a challenge for many businesses due to slow economic growth and low consumption expenditures. It is also expected that the operating environment for the motorbike sector in Vietnam remains challenging and fierce competitions will continue during the forthcoming period.

In the second half of this year, the Group plans to launch several new and modified motorbike models in Vietnam to raise product prices and profitability, which include the scooters of ATTILA-VENUS and ELIZABETH targeted for female customers and other models with larger engine capacity and cub models targeting male and young customers.

The Group strived to improve its operational efficiency and implemented cost control in order to minimise the negative impacts arising from the decrease of consumer spending in Vietnam. The Group will further reinforce marketing incentives schemes and to expand its distribution network in Vietnam. The Group will further reinforce the uprising markets in ASEAN countries, particularly Malaysia and the Philippines. The Group plans to actively engage in marketing and promotional activities, continue to launch more high-value motorbike models in order to expand and also boost sales margins of the exporting business. The Group maintains a positive attitude towards market growth in the second half of 2015 and in the coming years. The Group will focus more on our core business and technology development to improve product functionality and expand service dimensions to our customers. The Group will strive to seize all available development opportunities to enhance its long-term profitability and maximize returns to the shareholders of the Company.
